POWr User Guide for Magento

1. Install the extension

2. Add a POWr Plugin to your Site

a) POWr Plugins can be added / managed in your Magento Admin in the Content => Elements menu

b) POWr Plugins can be added as Widgets by selecting Content => Widgets and creating a new widget. Select the POWr Plugin under in the Widget Settings Type.

c) POWr Plugins can be added to any Page / Content by selecting "Show Editor" and clicking the POWr Icon and selecting the Plugin.

3. Edit your plugin

View or preview your live webpage. The POWr Plugin will appear with and Edit Icon. Simply click "Edit" and you can edit right in your page.
