Manage FAQ Groups

Manage FAQGroup

To create a new FAQ group, click on the Add New FAQGroup button on the top-right of the page.
Add/Edit FAQ Group

On the next page, you will see a form to fill in group name, icon and its sort order. The group with the smaller order number will be displayed first.

After filling all necessary information in, you will have two options including Save/Save and Continue, both of which help you to save the FAQ group.
Manage FAQ

After creating FAQ Group, you can begin to add questions & answers for each FAQ Group. Go to FAQ → Manage FAQ:

Here you can see a list of FAQs existing in your system (In case the module has just been installed, no FAQ found here).
