

# Ebit integration for Magento 2

User guide

# Admin panel

After installing it, in your admin panel go to **Stores > Settings > Configuration**

Then open the **Rafaelcg Extensions** tab and inside the **Ebit** item you can find the options, you just need to configure your Ebit ID and change the options to enable the Ebit banner, popup and badge.

## General Configurations

<b>Ebit Integration status</b> <small>[website]</small>	Enable	▼
<b>Conta Ebit</b> <small>[website]</small>	1410	🔗
Example: "https://survey.ebit.com.br/survey/first?storeId=11570" your code will be <b>11570</b>		
<b>Checkout Banner</b> <small>[website]</small>	Enable	▼
<b>Selo Ebit</b> <small>[website]</small>	Enable	▼
<b>Lightbox</b> <small>[website]</small>	Enable	▼

---

## Static Configurations

Select the most used options by your customers, if you need dynamic configuration, it must be extended to get the information from your custom module.

<b>Time to delivery</b> <small>[website]</small>	5	
Time in business days (e.g. 3)		
<b>Delivery type</b> <small>[website]</small>	In Store Pickup	▼
<b>Parcels</b> <small>[website]</small>	1	
Use just numbers (e.g. 1)		
<b>Payment type</b> <small>[website]</small>	Credit Card	▼

## Frontend result

After enable, configure and clean the Magento cache, you will be able to see these results below in your store frontend.
