Delete Orders for Magento 2

Description:

Currently, Magento doesn't allow you to delete an order from the store. You can only mark them as Cancelled but can't delete them from store. This extension allows you to delete any order and other associated data such as invoice and shipment, creditmemos.

The Delete Order Extension comes with following options:

- To delete any order from the order list page.
- To delete any order from the order detail page.
- Mass action to delete bulk orders from admin order list page.

Features implemented by Ranosys Technologies:

With Delete Orders for Magento 2 will enable to

- Easy Installation and up-gradation.
- Allows deleting any single order from order detail page using single click.
- Allows deleting order using mass action.
- Compatible with Magento 2 all latest versions in Community/ Enterprise Editions.1.
