

DELETE ORDERS EXTENSION

USER GUIDE

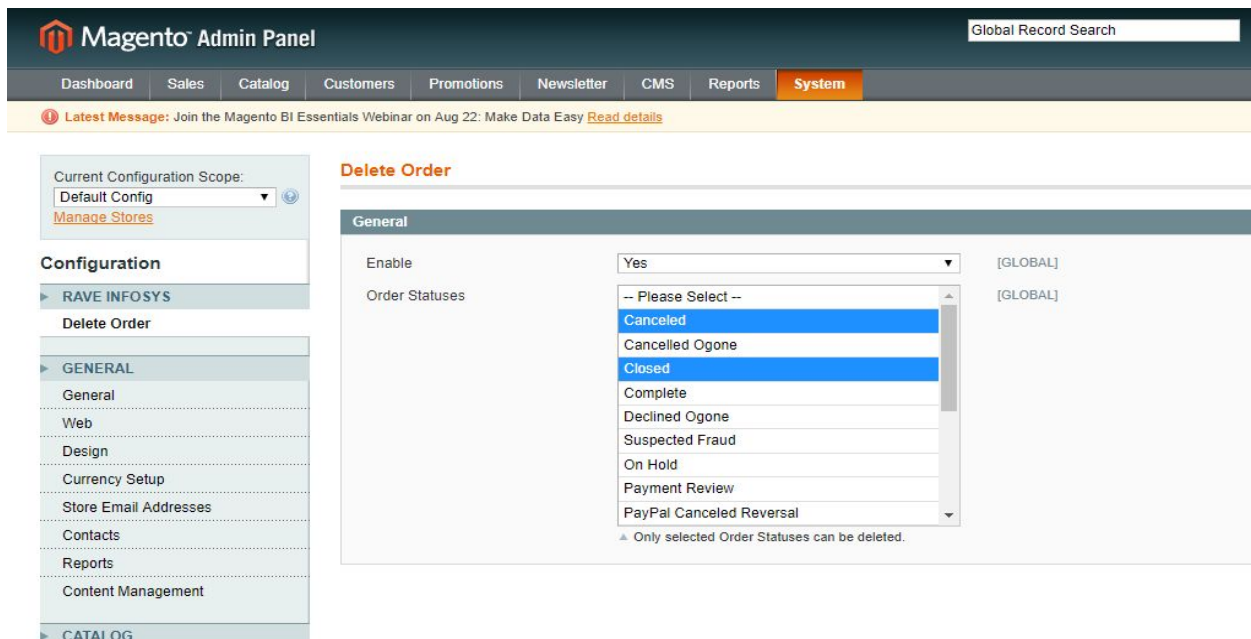

Currently, Magento® doesn't allow you to delete an order from the store. You can only mark them as Cancelled but can't delete them from store. This extension allows you to seamlessly delete any order and other associated data such as invoice and shipment, credit memos.

The Delete Order Extension comes with following options:

- To delete any order from the order list page.
- To delete any order from the order page.
- Mass action to delete bulk orders from admin order list page.

Configuration:

Once Delete Orders installation completed successfully, login into Magento® admin panel and go to System >> Configuration from admin menu. You will find Delete Order configuration option under Rave Infosys tab. Please choose/configure order status that could be deleted from the store.

The screenshot shows the Magento Admin Panel interface. At the top, there is a navigation bar with tabs for Dashboard, Sales, Catalog, Customers, Promotions, Newsletter, CMS, Reports, and System. Below the navigation bar, there is a "Global Record Search" field and a "Latest Message" banner. The main content area is divided into two columns. The left column contains a sidebar with a "Configuration" section, where the "RAVE INFOSYS" tab is selected, and the "Delete Order" option is highlighted. The right column shows the "Delete Order" configuration page. Under the "General" section, there are two fields: "Enable" and "Order Statuses". The "Enable" field is set to "Yes" and has a "[GLOBAL]" label. The "Order Statuses" field is a dropdown menu with a "[GLOBAL]" label. The dropdown menu is open, showing a list of order statuses: "-- Please Select --", "Canceled", "Cancelled Ogone", "Closed", "Complete", "Declined Ogone", "Suspected Fraud", "On Hold", "Payment Review", and "PayPal Canceled Reversal". A note below the dropdown states: "▲ Only selected Order Statuses can be deleted."

Features:

- Easy Installation and up-gradation.
- Allows deleting any single order from order page using single click.
- Allows deleting order with any status like cancelled, closed, etc.
- Provides capability to delete orders, invoices, shipments and credit memos in bulk.
- Configuration option to select an order status that could be deleted from the store.
- Compatible with Magento® 1.9.x versions in Community Editions.
