

# XML SITEMAP SUBMISSION EXTENSION

## USER GUIDE

This extension allows you to generate XML sitemap of your store and you can also submit it to searching engines like Google, Windows Live, Yahoo, and Bing.

### Why use XML Sitemap on your website?

An XML sitemap includes all the pages your website have and how often it's updated. With the help of XML sitemap, you can let the crawlers understand the complete structure of your website which will further enhance your search engine optimization (SEO) as it makes it easier for Google to find out the content on your website and thus results in faster indexing and high discoverability.

We have built this XML sitemap extension that not only helps you generate the sitemap quickly but let you submit the sitemap to all the major search engines in one click.

Contrary to the zillions of XML sitemap extensions available in the market, this extension allows you to customize your configuration for example: if you require removing certain products from your sitemap, you can quickly make it. It also helps you-you to automate your sitemap submission to all the major search engines - Google, Yahoo, Windows Live, Bing. You can just set interval to let's say 15 days, our extension will do the submission of your sitemap.

Install extension on your Magento® installation. Once extension installed successfully, login into admin panel and "Sitemap" menu will be appear in the admin header menu.

The screenshot shows the Magento Admin Panel interface. At the top, there is a navigation bar with the following menu items: Dashboard, Sales, Catalog, Customers, Promotions, Newsletter, CMS, Sitemap, Exporter, Reports, and System. The 'Sitemap' menu item is highlighted with a red box, and a dropdown menu is visible below it, containing the following options: Sitemap Submission, Configuration, and View Response. Below the navigation bar, the main content area shows the 'Dashboard' section with a 'Choose Store View' dropdown set to 'All Store Views'. A 'Lifetime Sales' widget displays a value of '\$46,500.26'. To the right, there are 'Orders' and 'Amounts' tabs.

Please follow the below steps to use XML Sitemap extension:

1. Choose what to include/exclude while generating sitemap:

This is a demo store. Any orders placed through this store will not be honored or fulfilled.

Global Record Search

Dashboard Sales Catalog Customers Promotions Newsletter CMS **Sitemap** Exporter Reports System

**Configuration**

Configuration

Show Products	Yes
Show CMS Pages	Yes
Show Header And Footer	No

Save

2. Configure/Choose search engine to submit sitemap XML:

This is a demo store. Any orders placed through this store will not be honored or fulfilled.

Global Record Search

Dashboard Sales Catalog Customers Promotions Newsletter CMS **Sitemap** Exporter Reports System

**Site Map**

Site Map

Ping Interval *	30
	Day(s)
Choose Channel	<input checked="" type="checkbox"/> Google
	<input checked="" type="checkbox"/> Bing
	<input checked="" type="checkbox"/> Window Live
	<input checked="" type="checkbox"/> Yahoo

- All responses can be view under Sitemap >> View Response tab for submitted XML sitemap:

The screenshot shows the Magento Admin Panel interface. The top navigation bar includes 'Dashboard', 'Sales', 'Catalog', 'Customers', 'Promotions', 'Newsletter', 'CMS', 'Sitemap', 'Exporter', 'Reports', and 'System'. The 'Sitemap' tab is active. Below the navigation bar, the page title is 'View Responses'. The page shows a table with 2 records found. The table has columns for 'ID', 'Google Response', 'Yahoo Response', and 'Bing Response'. The first two records show successful notifications from Google, Yahoo, and Bing.

ID	Google Response	Yahoo Response	Bing Response
1	Sitemap Notification Received Your Sitemap has been successfully added to our list of Sitemaps to crawl.	Thanks for submitting your Sitemap. Join the Bing Webmaster Tools to see your Sitemaps status and more reports on how you are doing on Bing.	Thanks for submitting your Sitemap.
