

FREIGHT SHIPPING Via R+L CARRIERS®

USER GUIDE

Please Note: This extension was not created by R+L Carriers. Developers at Rave Infosys, have built this extension to facilitate a quick API integration with R+L Carriers Freight.

Freight shipping is used when large and heavy items need to be shipped. Our extension provides the integration of [R+L Carriers Freight](#) to show freight shipping quotes and delivery tracking on your Magento® store. Our extension fetch live freight rates from R+L Carriers using their available [Rate Quote API](#).

R+L Carriers Freight

R+L Carriers is an American private freight shipping company who provides freight services such as LTL, Truckload, Logistics, and more. It provides accurate rate quotes for your customers based on your [customer-specific rate tariff](#).

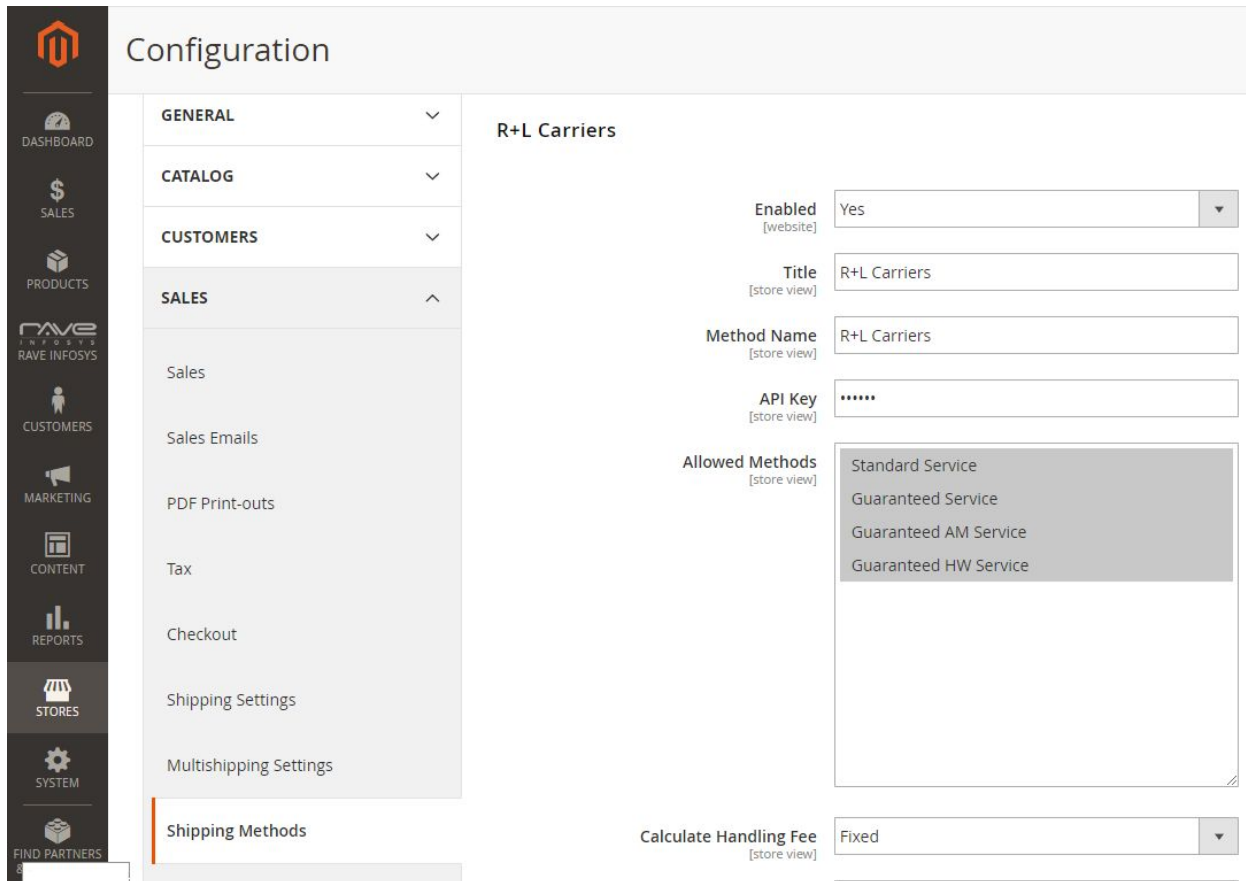

This module is free, but to get all the functionalities you must have a [MyRLC account](#) at R+L Carriers website to get access of freight API. If you do not have MyRLC account, you can [sign up for MyRLC here](#). You will get APIKEY from MyRLC account to access their freight rate quote API.

Extension can be configured by following below steps:

Login into Magento® admin panel and go to **Shipping Method** configuration section located under **Magento Admin >> Stores >> Configuration >> Sales:**

R+L Carriers Shipping Configuration

- Enabled shipping methods and set shipping method title/name.
- Configure API KEY that you will get from MyRLC account to access their freight API.
- Define your product's Ship/Freight Class.
- Configure allowed countries to use this shipping method.

The screenshot shows the 'Configuration' page in the RAVE system. On the left is a vertical sidebar with navigation icons for Dashboard, Sales, Products, Customers, Marketing, Content, Reports, Stores, System, and Find Partners. The main content area is titled 'Configuration' and has a left-hand menu with categories: GENERAL, CATALOG, CUSTOMERS, SALES, and Shipping Methods. The 'SALES' category is expanded, showing options like Sales, Sales Emails, PDF Print-outs, Tax, Checkout, Shipping Settings, and Multishipping Settings. The 'Shipping Methods' section is selected, displaying the configuration for 'R+L Carriers'. The configuration includes:

- Enabled** (website): Yes
- Title** (store view): R+L Carriers
- Method Name** (store view): R+L Carriers
- API Key** (store view): masked with dots
- Allowed Methods** (store view): A list box containing Standard Service, Guaranteed Service, Guaranteed AM Service, and Guaranteed HW Service.
- Calculate Handling Fee** (store view): Fixed
