

Reconnect Magento User Guide

In the following guide we will explain how to set up the magento plugin for Reconnect.

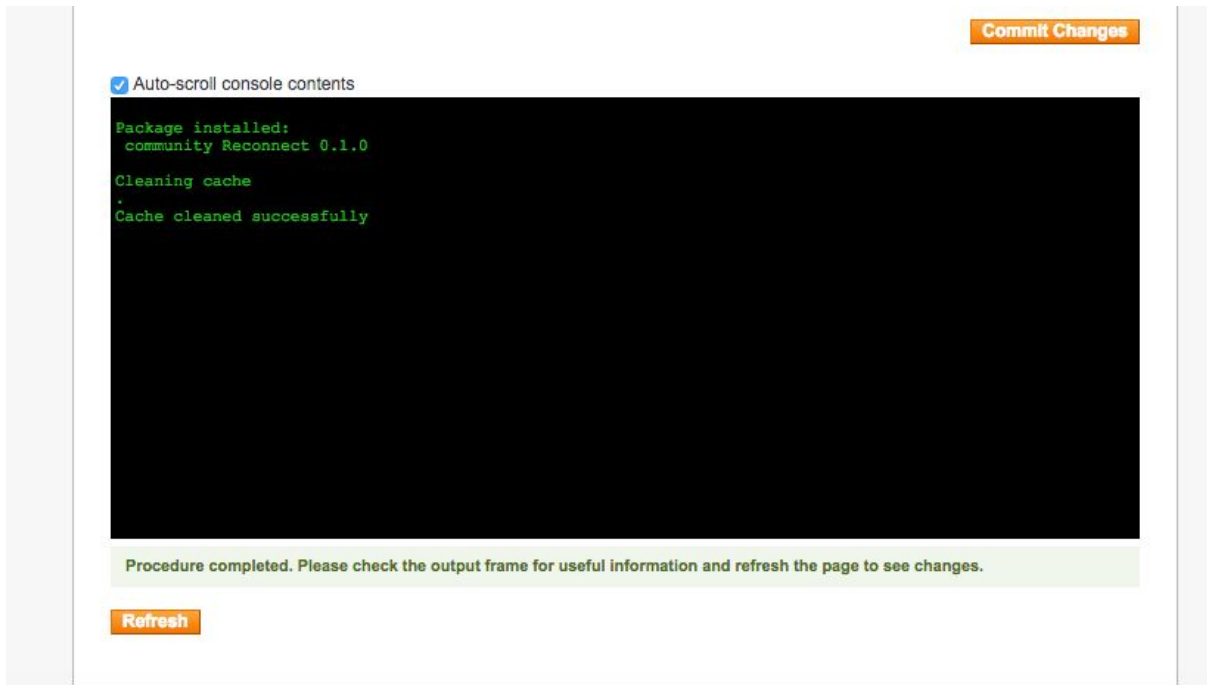

1. Download the Magento plugin.
2. Login to your Magento admin.
3. In the Magento admin panel go to to System > Magento connect > Magento connect manager and login.

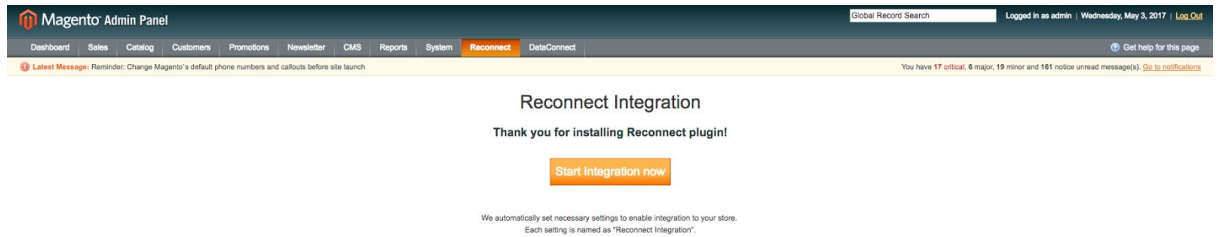

4. Under “Direct package file upload” choose the plugin file you downloaded and upload it.

5. Once the file successfully uploads click on Refresh and go back to the admin.

6. In the admin click in the main menu on Reconnect > Integration.
7. Click on “Start integration now”.

8. You will now be redirected to your Reconnect dashboard. Your Reconnect integration is now live!
