

# COMING SOON PRODUCTS

---

BY

**RED** CHAMPS

## Overview

If you are a store owner and have some products which are going to be added to your store in few coming days then you are at the right place! We have developed this extension to set such products as coming soon along with the date on which they are going to be launched. So by using this extension on your store, you can inform the visitors that something new and awesome is coming soon :)

It will handle Coming Soon in below way in frontend

**On Category, Search and Product List widget**

- It removes add to cart and stock status.
- Add a 'Coming Soon' badge to product(s). 'Coming Soon' text can be modified from the admin side.

The screenshot displays a product list interface with a header and footer. The header includes 'SORT BY: Position', 'VIEW AS: [grid icon] [list icon]', '5 Item(s)', and 'SHOW: 12'. The product list contains four items:

- ELIZABETH KNIT TOP**: Price \$210.00. Features a 'COMING SOON' badge and color selection options (dark blue, pink, white, red).
- NOLITA CAMI**: Price \$150.00. Features a 'COMING SOON' badge, color selection options (black, pink), and a 4-star rating.
- LUDLOW OXFORD TOP**: Price \$185.00. Features a 'COMING SOON' badge and a color selection option (white).
- TORI TANK**: Price \$60.00. Features a 'COMING SOON' badge and a color selection option (dark blue).

Each product card includes a 'VIEW DETAILS' button and links for 'Add to Wishlist' and 'Add to Compare'. The footer mirrors the header information.

### On Product Detail page

- It removes stock status, add to cart button and product options.
- Show an attractive countdown according to the product's launch date.
- Add a subscription form for customers to subscribe and they will get the email notification once the product will be launched.

HOME / ELIZABETH KNIT TOP

### ELIZABETH KNIT TOP \$210.00

The demure Elizabeth Knit features a semi sheer open weave and a forgiving silhouette. A nude camisole underneath keeps a stylish but conservative look.

## General Configurations

1. Include jQuery - This setting control inclusion of jQuery library in the frontend of the website. If your store already has jQuery library then make sure to set it to 'No' else you may face javascript errors on the frontend.
2. Launch Products Automatically - If this setting is set to 'Yes' the product will be automatically launched by setting product attribute 'Availability Status' to Live. Also email notification will be sent to all subscribers of that product.

## Frontend Settings

1. Product Page Section Title - The value of this setting will be used as the section title displayed above the countdown or count down alternative text on the product page.
2. Product Page Countdown Alt Text - The value of this setting will be used when launch date of product has been expired and products 'Availability Status' attribute value is not changed to 'Live'.
3. Category Page Product Status Text - The text entered in this setting will be used as the label of ribbon on category, search pages and product list widgets.

## Product Launch Notifications

1. Email Sender - Set email sender from which product launch notification needs to be sent.
2. Email Template - Select email template need to be used for product launch notifications. If you want to customize default template then you can create a new email template at System > Transaction Emails by loading default one and select that template at this configuration setting.
3. Send Email Copy To - Enter comma separated email addresses to which you want to receive copy of each product launch notification email.
4. Send Email Copy Method - Select copy email method CC or BCC.

## FAQ's

**Q. I don't want countdown to be displayed on product page?**

Ans. Please leave product's 'launch date' empty or set it to past.

**Q. Countdown is not working on the frontend, how to resolve?**

Ans. Please make sure your store already have jQuery library included on the frontend or extension setting RedChamps > Coming Soon > Settings > General Settings > Include JQuery is set to 'Yes'.

**Q. My products are not getting launched automatically even if extension setting RedChamps > Coming Soon > Settings > General Settings > Launch Products Automatically is set to 'Yes'?**

Ans. We use Magento cron job to launch products. Please make sure Magento cron job is configured on your server.
