

# AJAX Shopping Cart Update

## Overview

AJAX Shopping Cart Update is built to update the quantity of your customer's order seamlessly. You can see total price adjustments on the shopping cart page instantly. There are no needless page reloads. There are buttons to increase or decrease the quantity of items on your cart. It is a much simpler approach for updating the products on your cart. Customers don't have to manually enter the quantity in the cart, if they don't want to. They don't have to click 'Update to Cart' button every time they add, remove or delete products. This makes the whole process intuitive and flawless. It also helps in decreasing the cart abandonment rate. The fact that customers feel the checkout process is easier, intuitive and faster builds trust in your customers which results in increase in ROI.

The AJAX Shopping Cart extension is guaranteed to improve effective engagement with your customers. It makes it more appealing and user friendly which greatly enhances the customer experience.

## Features

- AJAX-based technology to let customers update quantity of the products to the cart
- Automatically updates the price without having to reload the page
- Buttons to increase and decrease the quantity of items
- AJAX call to cart, summary and mini-cart to automatically update the price
- Updates the cart in real-time.
- User-friendly and seamless way to update cart

## Installation

Run following command:

```
composer require rltsquare/ajax-shopping-cart-update
```

Wait while composer is updated.

3. Enter following commands to enable the module:

```
php bin/magento module:enable RLTSquare_AjaxShoppingCartUpdate
```

```
php bin/magento setup:upgrade
```

```
php bin/magento cache:clean
```

```
php bin/magento cache:flush
```

4. If Magento® is running in production mode, deploy static content and then clear the cache:

```
php bin/magento setup:static-content:deploy
```

This extension for Magento® works on Magento 2.2 and 2.3 versions. Tested on versions 2.2.5 and above.

Here are the print screens:

The screenshot shows the Magento 2.2.2 Configuration page for the 'AJAX Shopping Cart Update' extension. The page is titled 'Configuration' and has a 'Store View' dropdown set to 'Default Config'. A 'Save Config' button is visible in the top right corner. The left sidebar contains a navigation menu with categories: SALES, CATALOG, CUSTOMER, MARKETING, CONTENT, REPORTS, STORES, SYSTEM, and FIND PARTNERS & EXTENSIONS. The main content area is titled 'AJAX Shopping Cart Update' and features a 'Settings' section. Under 'Settings', there is a 'DOTMAILER' section with a dropdown menu, and a 'SERVICES' section with a dropdown menu. The 'ADVANCED' section is also visible. A warning message at the top of the page states: 'One or more indexers are invalid. Make sure your Magento cron job is running.' The footer of the page includes the copyright notice 'Copyright © 2019 Magento Commerce Inc. All rights reserved.' and the version information 'Magento ver: 2.2.2 Report an Issue'.

One or more indexers are invalid. Make sure your Magento cron job is running. System Messages: 2
