

# Installation guide Rule magento plugin

## Step by step instructions

1. Go to <https://www.rule.io> and sign up for a test account.
2. Log in to the Rule application
3. Go to Settings > Developer and create a new API- key.
4. Log in to your Magento installation
5. Go to Admin
6. Select Stores/Configuration section.
7. Then select RULE/Rulemailer from the left menu.
8. Enter your Api key you copied from Rule and save.

If 'Use transactional' field set to 'Yes' all mail from your Magento app are going to be sent via RULE transactional api.
