

How to install Salesfire

1. Add Salesfire to your Magento account
(<https://marketplace.magento.com/salesfire-magento2.html>)
2. Navigate to the Extension Manager within your store admin (System > Web Setup Wizard > Extension Manager)
3. Refresh then navigate to Review and Install.
4. Install salesfire/magento2 (Version 1.1.1)
5. Continue to setup.

How to setup Salesfire

After installing you will need to enter your Salesfire details by following the steps below:

1. Navigate to the store configuration (Stores > Configuration)
2. Navigate to the Salesfire settings (Salesfire > General)
3. Populate the Site ID (This can be found within your Salesfire admin)
4. Mark enabled as Yes.
5. Done.
