

+-----+
| Magento 2.0 Module Installation Steps |
+-----+

Thank you for your order. These are the steps to install the Magento 2.0 module.

1. Unzip the file and copy the folder into the <magento root>/app/code folder
2. Open a new terminal/SSH screen and cd into your Magento root directory
3. Execute these commands:
 php bin/magento module:enable --clear-static-content
Schogini_Mercuryhosted
 php bin/magento setup:upgrade
4. That's it. Now, the module has been installed
5. Login into your Magento Admin > Stores > Configuration > Sales > Payment Methods > BeanStream and
 configure the fields with your credentials.

Please feel free to email us if, you need any assistance with the installation.

Thank you.

Regards

Team Schogini
