

## Perfect Audience For Magento 2 - Installation/Set-up Guide

1. **Upload Package:** Upload the content of the module to your root folder. This will not overwrite the existing Magento folder or files, only the new contents will be added.
2. **Install extension:** After the successful upload of the package you have to run the commands on Magento2 root directory

**“php bin/magento setup:upgrade”**

**“php bin/magento setup:static-content:deploy”**

3. **Clear Caches:** This can be done from the admin console by navigating to the cache management page (**System->Cache Management**), selecting all caches, clicking 'refresh' from the drop-down menu, and submitting the change. Logout and login back in Admin.
4. **Configuration settings for Perfect Audience:**

Go to **Admin->Stores- >Configuration -> Scommerce Configuration->Perfect Audience->General**

- a. **Enable:** Set yes to enable the module.
- b. **License Key:** Enter the License key provided by Scommerce Mage.
- c. **Tracking Tag ID:** Enter tag Id only without .js.
