

Additional Payment Fee Installation/Set-up Guide

- 1. Disable Compilation Mode:** To check that this is disabled, go to System->Tools->Compilation. If the compiler status is 'Disabled', you are ready to go. If not, simply click the 'Disable' button on the right hand side of the screen.
- 2. Upload Package:** Upload the content of the module to your root folder. This will not overwrite the existing Magento folder or files, only the new contents will be added.
- 3. Clear Caches:** This can be done from the admin console by navigating to the cache management page (System->Cache Management), selecting all caches, clicking 'refresh' from the drop-down menu, and submitting the change.

Configuration Changes

Admin -> Scommerce Configuration -> Surcharge

Enabled: Enable /Disable Module

License Key: Valid key provided by Scommerce Mage

Label: This label text gets used in the frontend of the website which will be shown on basket, review, invoice, order, shipment, email confirmation and refund.

Surcharge Amount Type: This option allows you to choose fixed amount or percentage value. Percentage value gets calculated based on the subtotal of the basket value.

Surcharge Value: This is the surcharge or additional fee which will be shown to the customer based on surcharge amount type (fixed or percentage)

Skip with Free Shipping? – This option can be used if you don't want to charge additional fee when the shipping price is zero. This is useful when you are charging additional fee based on the shipping country but when the shipping is free then you might not want to charge additional fee.

Shipping Countries – The additional fee will be applied only to the selected shipping countries. Please select all if you want to charge additional fee for all your orders.

Payment Method – The additional fee will be applied only to the specific payment method (s). Please select all if you want to charge additional fee for all payment methods.

Please contact core@scommerce-mage.co.uk for any queries.

Please Note: It is advised to back up your live site before installation.
