

Installing the extension

There are two ways of installing the SendinBlue extension for Magento:

The first way is to install the plugin using a zipped file:

1. Unzip the SendinBlue-Magento plugin.
2. Upload its content into your Magento root directory.
3. Login to Magento as administrator.
4. Empty the Magento cache.
5. Log off.
6. Log back on as administrator.
7. Your plugin is available via "System > SendinBlue settings".

The second way is to use the MagentoConnect interface:

Go to "System>Magento Connect>Magento Connect Manager"

Then copy and paste the following URL in the "Paste extension key to install" field:

<http://connect20.magentocommerce.com/community/Sendinblue>

Click on the "install" button after the field

A summary of the extension dependencies will then appear. Click on "Proceed" to launch the extension installation

You will then be redirected to the bottom of the page to the command screen where you will be able to see the installation commands. Click on "Refresh".

You should then be able to see the SendinBlue extension in your list of installed extensions.
