<https://help.sendinblue.com/hc/en-us/articles/209578645--Installing-the-Magento-Plugin>

Installation Method 2 - Installing using archive

- * Download [ZIP Archive](<https://github.com/sendinblue/magento-plugin.zip>)
- * Extract files
- * In your Magento 2 root directory create folder app/code/Sendinblue/Sendinblue/
- * Copy files and folders from archive to that folder
- * In command line, using "cd", navigate to your Magento 2 root directory
- * Run commands:

```
