1. Introduction

Spin To Win Discount extension is a promotional tool that helps the store owners to attract new customers by providing them with surprising discount.

Spin To Win Discount extension helps you to display a spin wheel for your store visitors and gives a surprising discount on spinning the wheel. This extension helps store owner to get massive traffic to a store by attracting customers to grab the surprising discounts. Hence, this extension works as a marketing tool for generating new sales on your store. It allows the customer to spin a wheel and if the customer wins, they'll get the discount coupon code.

It allows an admin to manage the number of spins given to each user and can set configurations to send the coupon to the winner via email, so the customers can come back and avail their coupon whenever they feel like. The spin results, prizes, win/lose, a number of spins and more can be controlled from a backend configurations. The spin to win discount extension is usable for every theme and environment. The admin can change the background of the spin wheel, font colours, font sizes, wheel styles and even the colours of each segment of the wheel as per your theme and much more. This extension is fully responsive so it looks and works great on every desktop, tablet and mobile device.

Features:

- Easy frontend customization
- Spin wheel display and hide option
- Manage the number of spins given to each user
- Admin can set spin wheel specific period
- Maintain the speed of the spin wheel on your choice
- It allows the customer to spin wheel to get discount coupon code
- Admin can show details about a customer who is the winner
- Customize the spin wheel like colour, font size, text alignment, background etc.
- Create different spin wheels for many occasions
- The coupon generated by spinning the wheel can be sent to the customers via email as well
- Customizable number of wheel segments and offers to be shown on it
- Add discount based on expression(pattern)
- Admin can manage message
