

There are some cases when we need to exclude some payment or shipping methods. This module provide an ability to exclude payment/shipping methods by product. For example if you have some product(s) in the cart excluded shipping methods will not be available. The same feature is available for exclusion payment methods.

Also you can be wanted to restrict some payment method if some shipping method is selected. To do that you should make a few little configurations in admin panel.

## **Features**

- Allows exclude some payment method if some shipping method is choosen
- Allows exclude some payment method if some product is in the cart
- Allows exclude some shipping method if some product is in the cart
- Multiwebsdort
- Magento API support
- No conflicts with 3rd party extensions
- Simple installation - upload and use!
- Supports Magento CE v2.\*
- Supports Magento EE v2.\*

## **How to use**

### **Exclude Payment Methods By Shipping Method**

1. Go to Admin Panel -> Configuration -> FSV EXTENSIONS -> Shipping and Payment Exclusion:

- Enabled Payment Methods Exclusion = YES
- Payment Methods Exclusion Mode = Include/Exclude
  - Include mode - will be allow only selected methods
  - Payment Methods Exclusion - choose some methods form the list

2. Save

3. Clean cache

## **Exclude Payment Methods By Product**

1. Go to [edit page of some product] -> General tab -> Payment Methods
2. Select some methods
3. Go to Configure Admin Panel -> Configuration -> FSV EXTENSIONS -> Shipping and Payment Exclusion -> Payment By Product Exclusion
  - Enabled Payment Methods Exclusion = YES
  - Payment Methods Exclusion Mode = Include/Exclude
    - Include mode - will be allow only selected methods
    - Exclude mode - will be allow only not selected methods
  - Save

## **Exclude Shipping Methods By Product**

1. Go to [edit page of some product] -> General tab -> Shipping Methods
2. Select some methods
3. Configure Admin Panel -> Configuration -> FSV EXTENSIONS -> Shipping By Product Exclusion -> Shipping By Product Exclusion
  - Enabled Shipping Methods Exclusion = YES
  - Shipping Methods Exclusion Mode = Include/Exclude
    - Include mode - will be allow only selected methods
    - Exclude mode - will be allow only not selected methods
4. Save

### **NOTE:**

1. If some configurations are crossed (exclude/include) method will be disallowed rather than allowed.

2. If there are several products in the cart and one of them has permission to some method but other products don't, the method will be disallowed.
3. If we use include mode, all products should include wanted shipping or payment method.

## **Questions?**
