

Install Magento Extension via Magento Connect

1. First, you need to log in to the Magento administrator area. Then go to **System > Magento Connect > Magento Connect Manager**.

The screenshot shows the Magento Admin Panel interface. The top navigation bar includes various modules like Dashboard, Sales, Catalog, Mobile, Customers, Promotions, Newsletter, CMS, Reward Points, SimiPOS, and Surveys. The 'System' menu is expanded, showing a list of options including 'Magento Connect Manager', which is highlighted. Below the navigation bar, there is a 'Latest Message' banner and a 'Category Manager' section with a table of categories. The table has columns for 'ID' and 'Name' and lists categories such as 'Eric test', 'Huong dan cai dat', 'Knowledge Base', 'Installation', 'Product Update', 'Reward Policy', 'Partner program', 'Affiliate program', and 'License'.

2. Magento Connect Manager page will open and you will be asked to enter your administrative credentials again.

The screenshot shows the 'Magentoconnect MANAGER' page. The main heading is 'Log In'. Below the heading, there is a message: 'Please re-enter your Magento Administration Credentials. Only administrators with full permissions will be able to log in.' There are two input fields: 'Username:' with the value 'admin' and 'Password:' with a masked password '*****'. A 'Log In' button is located below the password field.

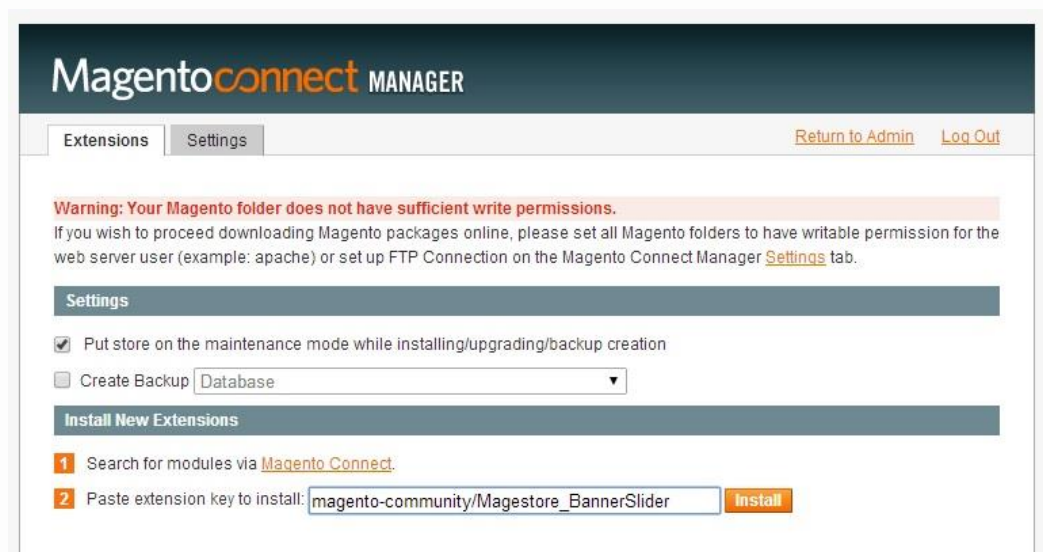

3. After logged in, you will see 2 tabs: **Extensions** and **Settings**. It is recommended to verify the options in the Settings section first.

In the Settings tab, there are several options you can configure. It is safe to leave those options to their default values.

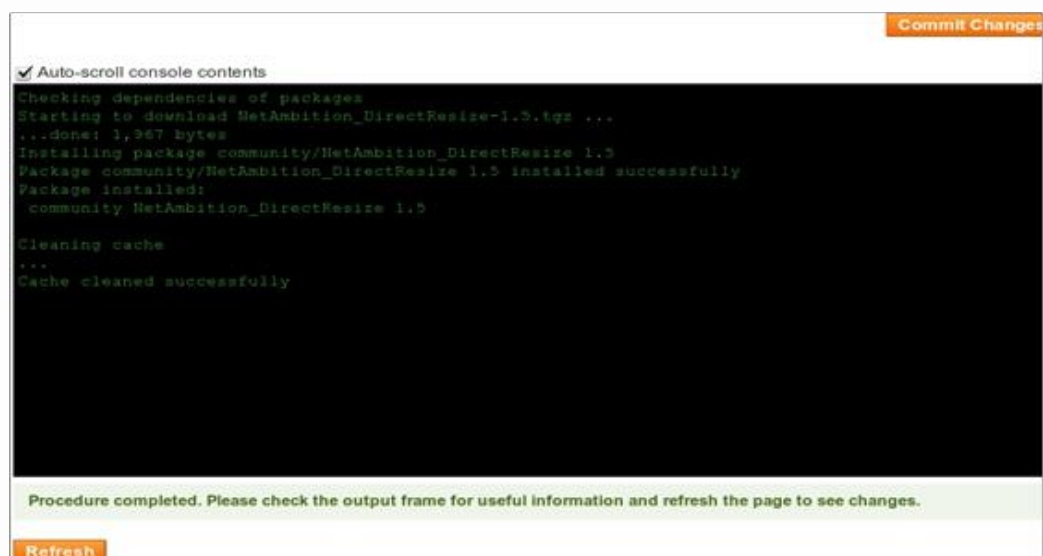

4. Now, let's continue with the installation process. Go to Magento Connect Manager -> Extensions tab. and click on the link to Magento Connect

On Magento Connect website, you can navigate/ search for the extension you need, Magento extensions are categorized into different categories including both free and paid magento extensions

5. Once you finish choosing an extension click on **Install Now** button and choose the Magento Connect version that matches your current Magento version. If you are using Magento 1.5 or newer, you need to select version 2.0, otherwise leave Magento Connect 1.0. Read the extension license agreement and then check the box for "I agree to the extension license agreement". Finally, click the **Get Extension Key** button and you will be provided with extension key. This is the key that you need to insert into your Magento Connect area. Then click **Install** and then **Proceed**.

6. Now, the new extension will be automatically downloaded and installed. Any problem occurred during the installation will be showed in the log,so that you know what should be done to resolve it. After the extension is properly installed a screen for a successful installation will appear.

After the extension is successfully installed it is important to go back to Magento admin and adjust its options according to your needs. Also, make sure that your online store is properly functioning and there are no errors.
