

SimplyPost extension for Magento – User guide

Step 1: Go to Merchant portal and Add Magento app

Paste the access token from Magento system to SP

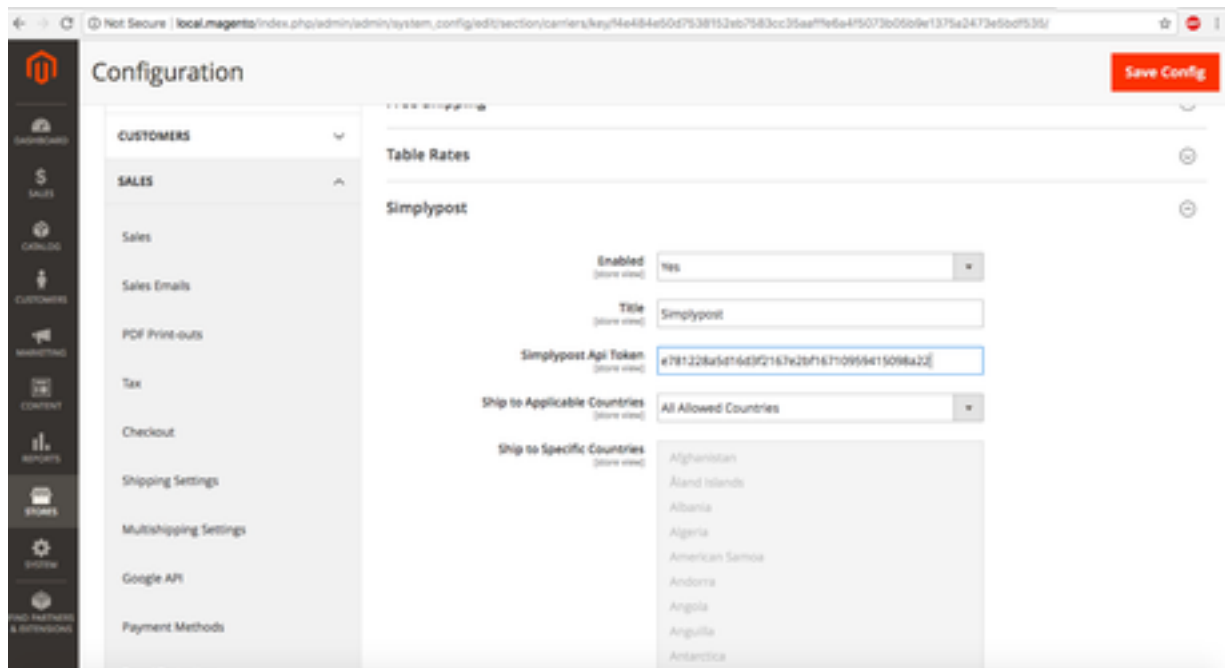

The SimplyPost Api token has generated

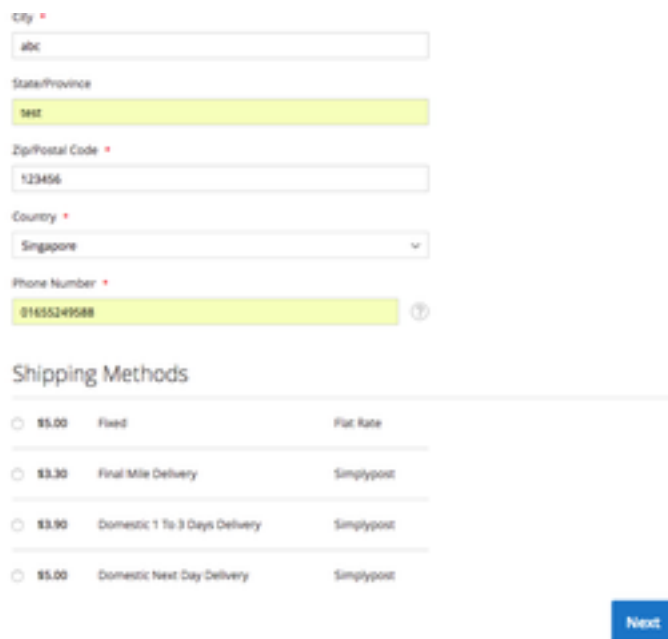

Step 2: In Magento system, Enable config and paste Access token has generated in SP system into Magento

(Store > Configuration > Sale > Shipping method > Simplypost) and check Yes for field Enabled

So, shipping method “SimplyPost” has been integrated with Magento successfully

The screenshot shows a shipping address form with the following fields:

- City: abc
- State/Province: 944
- Zip/Postal Code: 123456
- Country: Singapore
- Phone Number: 0165249588

Below the form is a section titled "Shipping Methods" with a table of options:

Rate	Method Name	Carrier
\$5.00	Fixed	Flat Rate
\$3.30	Final Mile Delivery	Simplypost
\$3.90	Domestic 1 To 3 Days Delivery	Simplypost
\$5.00	Domestic Next Day Delivery	Simplypost

A blue "Next" button is located at the bottom right of the shipping methods section.

Configure Service Mapping

Shipping rate displayed on the E-commerce plugin can be customised by sellers based on certain conditions:

- Order price range
- Total weight range

Go to App section in Merchant Setting to add service mapping for Magento integration.

simplypost ORDER MANAGEMENT - PRODUCTS - SERVICES -
