>>**Step-4.** Upload package file (purchased file) in direct package file upload section and click on upload.

The screenshot shows the 'Magentoconnect MANAGER' interface. It has tabs for 'Extensions' and 'Settings'. Under 'Settings', there are options for 'Put store on the maintenance mode while installing/upgrading/backup creation' (checked) and 'Create Backup' (Database). The 'Install New Extensions' section has a search step and a 'Paste extension key to install:' field with an 'Install' button. The 'Direct package file upload' section has a '1 Download or build package file.' step and a '2 Upload package file:' step with a 'Choose File' button and 'No file chosen' text. A red box highlights the 'Upload' button, and a red arrow points to it from the text 'Upload Extension Package File Here'. At the bottom, there is a 'Manage Existing Extensions' section with a 'Check for Upgrades' button.

>>**Step-5.** Return to Magento® admin and clear cache from System -> Cache Management

The screenshot shows the 'Magento Admin Panel' with a 'Global Record Search' bar and user information. The 'System' tab is active. A 'Latest Message' banner is present. The 'Cache Storage Management' section has buttons for 'Flush Magento Cache' and 'Flush Cache Storage'. Below is a table of cache types:

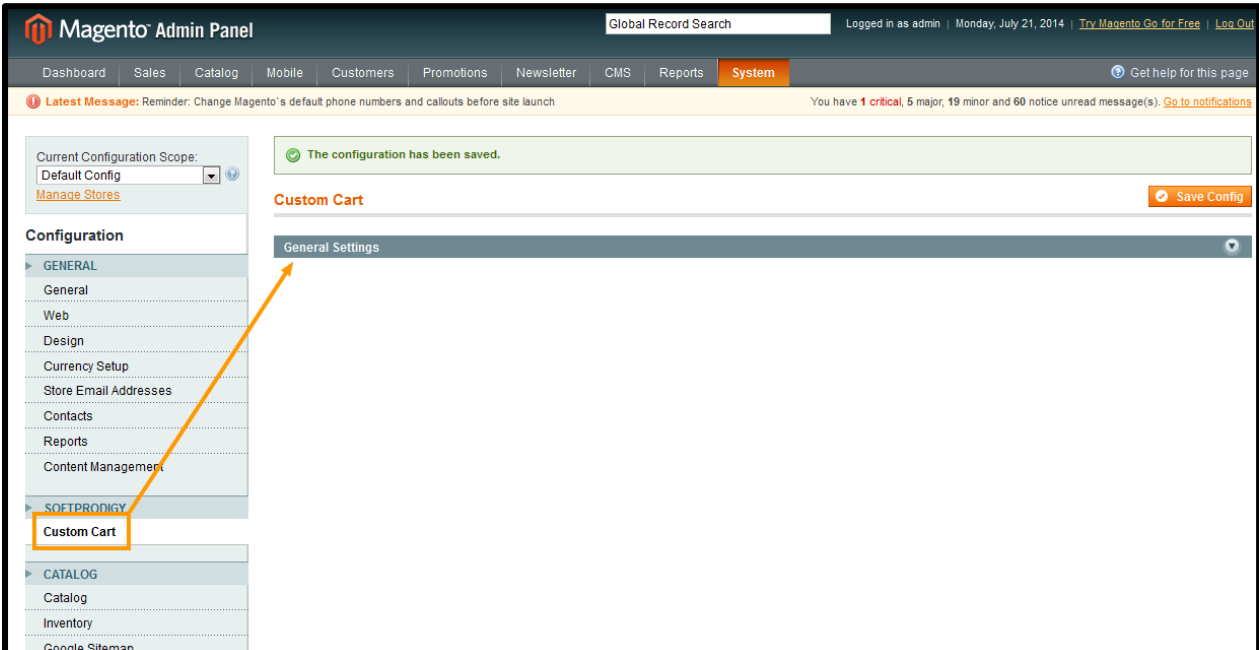

Cache Type	Description	Associated Tags	Status
<input type="checkbox"/> Configuration	System(config.xml, local.xml) and modules configuration files(config.xml).	CONFIG	ENABLED
<input type="checkbox"/> Layouts	Layout building instructions.	LAYOUT_GENERAL_CACHE_TAG	ENABLED
<input type="checkbox"/> Blocks HTML output	Page blocks HTML.	BLOCK_HTML	ENABLED
<input type="checkbox"/> Translations	Translation files.	TRANSLATE	ENABLED
<input type="checkbox"/> Collections Data	Collection data files.	COLLECTION_DATA	ENABLED
<input type="checkbox"/> EAV types and attributes	Entity types declaration cache.	EAV	ENABLED
<input type="checkbox"/> Web Services Configuration	Web Services definition files (api.xml).	CONFIG_API	ENABLED
<input type="checkbox"/> Web Services Configuration	Web Services definition files (api2.xml).	CONFIG_API2	ENABLED

Below the table is the 'Additional Cache Management' section with buttons for 'Flush Catalog Images Cache' (Pregenerated product images files.) and 'Flush JavaScript/CSS Cache' (Themes JavaScript and CSS files combined to one file.).

>>**Step-6.** Logout from Magento® admin and re-login.

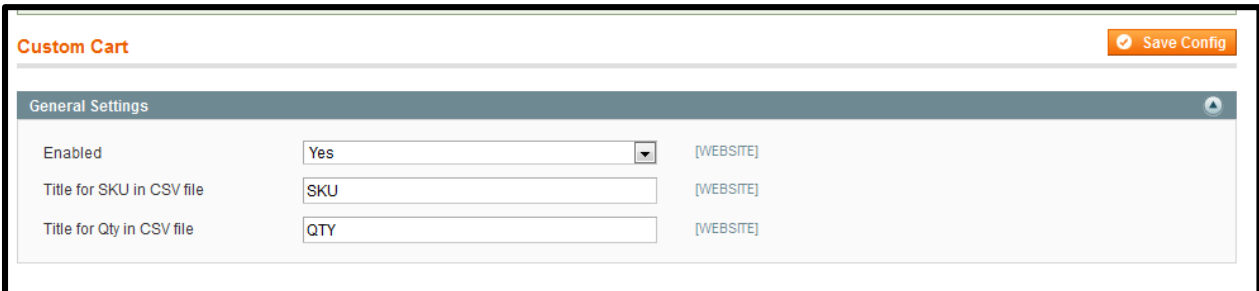

How to Enable and Disable the Extension?

>>**Step-1.** Go to System -> Configuration -> Custom Cart

The screenshot shows the Magento Admin Panel interface. The top navigation bar includes 'System' and 'Save Config' buttons. A message at the top states 'The configuration has been saved.' The left sidebar shows the 'Configuration' menu with 'Custom Cart' highlighted under the 'SOFTPRODIGY' section. An orange arrow points from the 'Custom Cart' menu item to the 'General Settings' tab in the main content area.

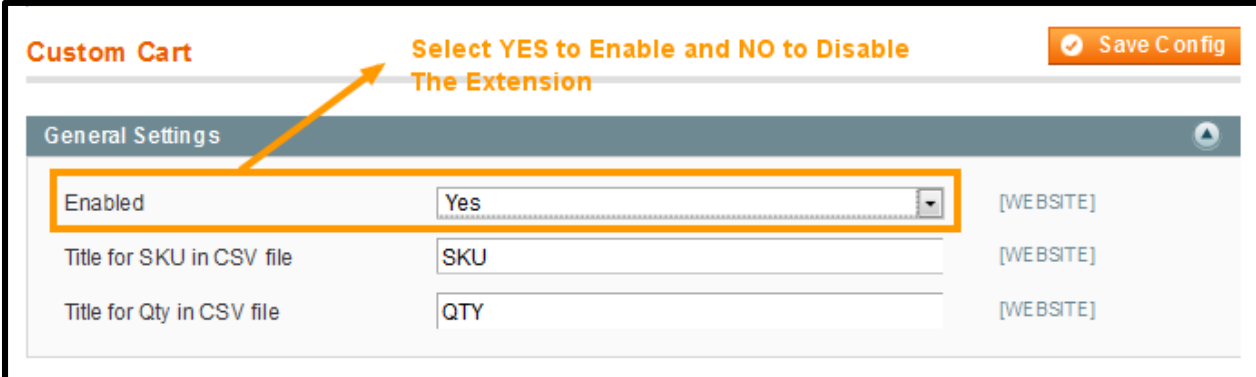

>>**Step-2.** Select General Settings of Extension.

The screenshot shows the 'Custom Cart' configuration page with the 'General Settings' tab selected. The page includes a 'Save Config' button and a table of settings:

General Settings		
Enabled	<input type="text" value="Yes"/>	[WEBSITE]
Title for SKU in CSV file	<input type="text" value="SKU"/>	[WEBSITE]
Title for Qty in CSV file	<input type="text" value="QTY"/>	[WEBSITE]

>>**Step-3.** Select YES to Enable and NO to Disable the extension from Admin.

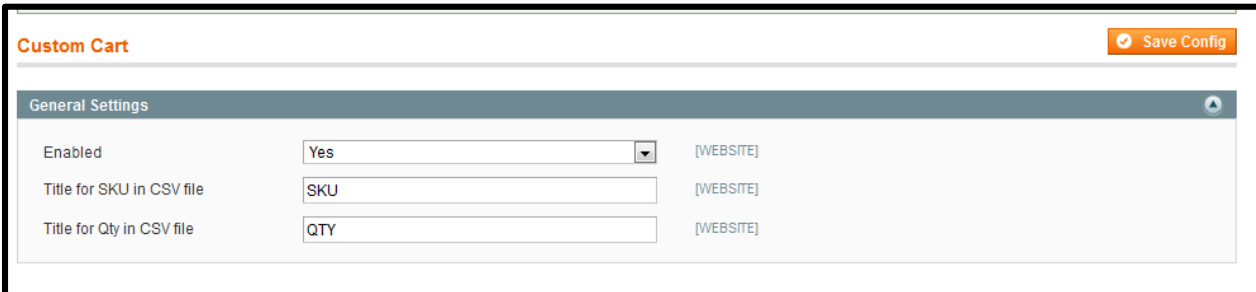

The screenshot shows the 'Custom Cart' configuration page. At the top, there is a header with the title 'Custom Cart' on the left, a note 'Select YES to Enable and NO to Disable The Extension' in the center, and a 'Save Config' button on the right. Below the header is a 'General Settings' section. The 'Enabled' dropdown menu is highlighted with an orange box and has an orange arrow pointing to the note above it. The other settings are 'Title for SKU in CSV file' with the value 'SKU' and 'Title for Qty in CSV file' with the value 'QTY'. Each setting has a '[WEBSITE]' label to its right.

Custom Cart			Save Config
General Settings			
Enabled	Yes		[WEBSITE]
Title for SKU in CSV file	SKU		[WEBSITE]
Title for Qty in CSV file	QTY		[WEBSITE]

How to Change the Header Titles for SKU and Quantity?

>>**Step-1.** Go to System -> Configuration -> Custom Cart -> General Settings

The screenshot shows the 'Custom Cart' configuration page. At the top, there is a header with the title 'Custom Cart' on the left, a 'Save Config' button on the right, and a 'General Settings' section below. The 'Enabled' dropdown menu is set to 'Yes'. The other settings are 'Title for SKU in CSV file' with the value 'SKU' and 'Title for Qty in CSV file' with the value 'QTY'. Each setting has a '[WEBSITE]' label to its right.

Custom Cart			Save Config
General Settings			
Enabled	Yes		[WEBSITE]
Title for SKU in CSV file	SKU		[WEBSITE]
Title for Qty in CSV file	QTY		[WEBSITE]

>>**Step-2.** From here Admin can change the Header Titles for SKU and Quantity in CSV.

Custom Cart Admin Can Change the Header Titles of the CSV [Save Config](#)

General Settings

Enabled	Yes	[WEBSITE]
Title for SKU in CSV file	SKU	[WEBSITE]
Title for Qty in CSV file	QTY	[WEBSITE]

Front End Demo of the Extension
