

# Discount Coupon Code Links

## Installation/User Guide

### Installation Process:

**Note:** Please take a backup of your all Magento files and database before installing or updating any extension.

### Extension Installation:

- Download the Discount Coupon Code Link extension .ZIP file from the Magento account.
- Log in to the Magento server (or switch to) as a user, who has permission to write to the Magento file system.
- Create folder structure **/app/code/Solwin/Applycoupon/** to your site root directory
- Extract the contents of the .ZIP file to the folder you just created
- Navigate to your store root folder in the SSH console of your server:
- Run upgrade command as specified : **php bin/magento setup:upgrade**
- Run deploy command as specified : **php bin/magento setup:static-content:deploy -f**
- Clear the cache either from the admin panel or command line **php bin/magento cache:clean**
- Now, you can see the Solwin menu in the admin panel. Please go to **Solwin -> Discount Coupon Code Link -> Configuration** and select **Enable** to Yes.
- Change/Set all other options as per your requirements and save settings.

### Overview:

Discount coupon code links extension for Magento 2 applies the automatic discount coupon code for customers on the shopping cart page.

It allows the store owner to create and share a coupon code link with the most popular social media in one click.

Customers are always looking out for discount coupons or deals while purchasing products to save their money. To increase user engagement with the store and earn loyalty and money, this is an effective way.

Once customers click on the shared coupon code link then the discount will be automatically applied on the shopping cart page and display the popup with the pre-configured message. With the help of the shared coupon code link, customers do not need to add the coupon code manually. Easy configuration for share coupon code link
