

Best Seller Products

Installation/User Guide

Installation Process:

Note: Please take a backup of your all Magento files and database before installing or updating any extension.

Extension Installation:

- Download the Best Seller Products .ZIP file from the Magento account.
- Log in to the Magento server (or switch to) as a user, who has permission to write to the Magento file system.
- Create folder structure **/app/code/Solwin/BestSellers/** to your site root directory
- Extract the contents of the .ZIP file to the folder you just created
- Navigate to your store root folder in the SSH console of your server:
- Run upgrade command as specified : **php bin/magento setup:upgrade**
- Run deploy command as specified : **php bin/magento setup:static-content:deploy -f**
- Clear the cache either from the admin panel or command line **php bin/magento cache:clean**
- Now, you can see the Solwin menu in the admin panel. Please go to **Solwin -> BestSellers -> Configuration** and select **Enable** to Yes.
- Change/Set all other options as per your requirements and save settings.

Overview:

Best Seller Products Magento extension displays system-generated products as best sellers. Best Seller Products Magento extension is easy to set up and gives many options for settings in the admin control panel.

Using Best Seller Products Magento extensions the admin can display bestseller products on the home page, any cms page, stand-alone, page, and in the left/right sidebar as a widget in a slider with navigation arrow.

The store admin can also set a product limit for sidebar and homepage products.

The customer can add bestseller products directly to the Cart, Wishlist, or compare from Bestseller product block on the home page, any cms page, stand-alone page and in the sidebar.

There are three ways to display "Bestseller Products":

1. On the Bestseller Magento page.
2. As a widget block can be inserted anywhere (home page or any cms pages).
3. As a slider in the sidebar widget on the home page or any cms pages.

Key Features:

The Extension provides the following features:

- Provides a fully customizable interface of the extension from the admin control panel.
- Displays system-generated products as bestseller products.
- Displays best selling product in a page sidebar with slider.
- As a widget block can be inserted anywhere (mostly used for home page).
- Customers can add bestseller products directly to Cart, Wishlist, or Compare.
- Drive the attention of the website customers/visitors to the bestselling products. That adds valuable credibility to the store.
- The Extension provides a stand-alone page with the bestselling product list.

Admin control panel:

In the Bestsellers Settings tab, Best Seller Products Magento extension allows the store owners to enable or disable the module from admin. Go to **Solwin >> BestSellers >> Configuration**.
