

Bookmark Manager

Installation/User Guide

Installation Process:

Note: Please take a backup of your all Magento files and database before installing or updating any extension.

Extension Installation:

- Download the Bookmark Manager .ZIP file from the Magento account.
- Log in to the Magento server (or switch to) as a user, who has permission to write to the Magento file system.
- Create folder structure **/app/code/Solwin/BookmarkManager/** to your site root directory
- Extract the contents of the .ZIP file to the folder you just created
- Navigate to your store root folder in the SSH console of your server:
- Run upgrade command as specified : **php bin/magento setup:upgrade**
- Run deploy command as specified : **php bin/magento setup:static-content:deploy -f**
- Clear the cache either from the admin panel or command line **php bin/magento cache:clean**
- Now, you can see the Solwin menu in the admin panel. Please go to **Solwin -> Bookmark Manager -> Configuration** and select **Enable** to Yes.
- Change/Set all other options as per your requirements and save settings.

Overview:

Bookmark Manager Magento 2 Extension allows the store admin to bookmark the frequently visited page at the admin side. The store owner can create own the admin control panel navigation by placing the most visited pages use in a dropdown list.

Save any admin URL, including customer view, order, CMS or product pages, Sales pages, Marketing pages, etc.

The store owners can set title to bookmarks to easily recognize the saved link. The extension provides each admin has separate access to bookmarks.

One admin also share bookmarks with other admin.

Bookmark Manager Magento 2 Extension makes navigation really very easy and quick for admin once they need to deal with some specific sections/pages in the admin control panel.

Advanced Reporting

Gain new insights and take command of your business' performance reports tailored to your customer data.

By **Manage Bookmarks** menu, the store owners can manage all bookmarks like change titles, change the path, or even delete any bookmark. Go to **Solwin >> Bookmark Manager >> Manage Bookmarks**.

The screenshot shows a dashboard titled 'Bookmarks'. At the top right, there are search, notification, and user profile icons. Below the title, there is a 'Select Bookmark' dropdown, a star icon, and an 'Add New Bookmark' button. A search bar with the placeholder 'Search by keyword' and a search icon is present. Below the search bar, there are 'Filters', 'Default View', 'Columns', and 'Export' options. A table shows 2 records found, with 20 items per page. The table has columns for ID, Title, Path, Created, Modified, and Action. The data rows are:

ID	Title	Path	Created	Modified	Action
1	Products	catalog/product/index	Aug 28, 2019 11:27:46 AM	Aug 28, 2019 11:27:46 AM	Select
2	Cache Management	adminhtml/cache/index	Aug 28, 2019 11:29:48 AM	Aug 28, 2019 11:29:48 AM	Select

When the store owner clicks on the **edit** option of a bookmark, the store owner can change all data about that bookmark even un-select admin from the edit.

The screenshot shows the 'Products' edit form. At the top right, there are search, notification, and user profile icons. Below the title, there is a 'Select Bookmark' dropdown, a star icon, and buttons for 'Back', 'Delete Bookmark', 'Reset', 'Save and Continue Edit', and 'Save Bookmark'. The form is titled 'Bookmark Information' and contains the following fields:

- Title:** Products
- Path:** catalog/product/index
- Display Publicly?:**
- Select Admin User:** A dropdown menu with options: admin 1, admin 2, admin 3.

- **Title:** Title of Bookmark.
- **Path:** Display Bookmark path.
- **Display Publicly?:** If store owners want to display publicly then click on the box.
- **Select Admin User:** Select the admin user for display bookmark.
