

Google Custom Search

for Magento 2

User Guide

Version 1.0.3

Getting Started :

A setup guide and general information to help you

This document covers the installation, set up, and use of this extension and provide answers and solutions to common problems and issues. We encourage you to read this document thoroughly if you are experiencing any difficulties.

Introduction :

Google's Custom Search Engine (Google CSE) enables site owners to define their own search engines for their website. Google custom search Magento 2 extension helps to integrate Google CSE to website and enhance search functionality.

It will also helps for search engine optimization. This extension works in Multi-store environments and improve your Google search result with images. All you need to fill up Search Engine Unique ID. Store owner can enable/disable Autocomplete feature – which makes querying even faster. Store owner can enable this extension from backend panel.

Features :

You can find these features below:

- Use Google Search Algorithms.
- Helps to increase SEO for your site.
- Works in Multi-store environments.
- Improve your google search result with images.
- Setup the Google Custom Search Engine to search through multiple websites of yours.
- Easily enable/disable from admin.
- Customize the No. of records per page.
- Enable/disable Image Search.
- All you need to fill up Search Engine Unique ID.
- Easy replacement with your inbuilt search functionality.
- Admin can enable/disable Autocomplete feature – which makes querying even faster.
- Enable 'Order By' dropdown from admin.

- Easy to configure.

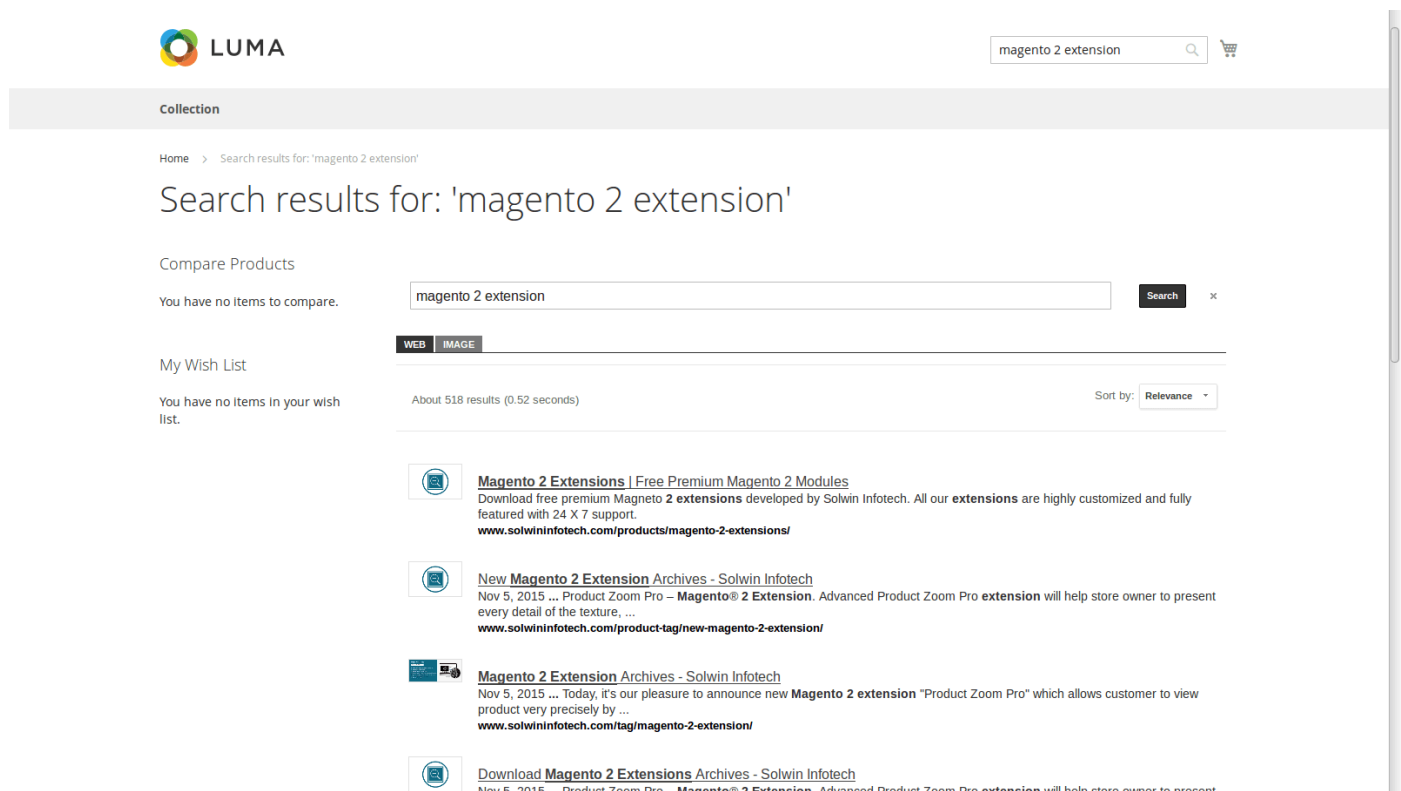

How To Use :

In frontend, Customers can search via default search box but it will return result based on Google custom search engine setup by store admin. This search also supports image search and sort by options like date and relevance.

For more details see below examples.

1. Custom Search With Sort By Relevance

This example shows Google custom search that sort by using relevance.

The screenshot shows a Magento 2 storefront search results page. At the top left is the 'LUMA' logo. At the top right is a search bar containing 'magento 2 extension' and a shopping cart icon. Below the search bar is a 'Collection' header. The main content area shows 'Search results for: 'magento 2 extension''. On the left sidebar, there are sections for 'Compare Products' (You have no items to compare.), 'My Wish List' (You have no items in your wish list.), and 'My Wish List'. The main search results area shows a search bar with 'magento 2 extension' and a 'Search' button. Below the search bar are tabs for 'WEB' and 'IMAGE'. The results show 'About 518 results (0.52 seconds)' and a 'Sort by: Relevance' dropdown. The results list includes:

→ Configuration Settings

The screenshot shows the Magento 2 Configuration interface. On the left is a vertical sidebar with navigation icons for Dashboard, Sales, Products, Customers, Marketing, Content, Reports, Solwin, Stores, System, and Find Partners & Extensions. The main content area is titled 'Configuration' and shows 'Store View: Default Config'. A yellow notification bar at the top states 'You saved the configuration.' Below this, the 'GOOGLE CUSTOM SEARCH' section is expanded to show 'Custom Search Settings'. The settings include: 'Enabled' set to 'Yes', 'Include Your Custom Code?' set to 'Yes', and a 'Custom Code' text area containing 'Enter your custom code here..'. A note below the text area says 'To replace custom script with your script'. The footer contains 'Copyright© 2015 Magento Commerce Inc. All rights reserved.' and 'Magento ver. 2.0.0 Report Bugs'.

- Enable Google Custom Search: Yes
- Include Your Custom Code: Yes
- Custom Code: Get your custom code for search engine from <https://cse.google.com/all>
