# Most Viewed Products

[Installation/User Guide](#)

### Installation Process:

**Note:** Please take a backup of your all Magento files and database before installing or updating any extension.

### Extension Installation:

- Download the Most Viewed Products .ZIP file from the Magento account.
- Log in to the Magento server (or switch to) as a user, who has permission to write to the Magento file system.
- Create folder structure **/app/code/Solwin/MostViewed/** to your site root directory
- Extract the contents of the .ZIP file to the folder you just created
- Navigate to your store root folder in the SSH console of your server:
- Run upgrade command as specified : **php bin/magento setup:upgrade**
- Run deploy command as specified : **php bin/magento setup:static-content:deploy -f**
- Clear the cache either from the admin panel or command line **php bin/magento cache:clean**
- Now, you can see the Solwin menu in the admin panel. Please go to **Solwin -> Most Viewed Products -> Configuration** and select **Enable** to Yes.
- Change/Set all other options as per your requirements and save settings.

### Overview:

Most Viewed Product Magento 2 extension helps the store owners to showcase products and drive more of visitor's attention to the Most viewed products. The store owner can manage the number of the product to display from the admin area and also managed for display in a sidebar block. Enhance site content by allowing to display catalog most viewed products.

With the use of Most Viewed Product Magento 2 extension, the store owner can display a specified number of products in a grid layout with thumbnails of products. When the customers view any product, that product will be displayed in a most viewed block. The customer can add this product directly to Cart, Wishlist, or Compare from Most viewed product block .

### There are three ways to display "Most Viewed Products":

1. As stand-alone Most Viewed Products page.
2. As widget-like block that can be inserted anywhere (home page or any cms pages).
3. As slider in the left or right sidebar.

### Key Features:

The Extension provides the below features:

- Easy to install and manage.
- Comes with a very user-friendly interface.
- Easily manageable from the store admin panel.
- Drive the attention of the website customers/visitors to the products.
- Display customer's last viewed products as a most viewed product. Adds valuable credibility to the store.
- Customers can add this product directly to Cart, Wishlist, or compare.
- As a widget-like block that can be inserted anywhere (mostly used for home page).
- Provides a stand-alone page with the most viewed product list.
- Display the most viewed product in a page sidebar with slider.

**Admin control panel:**

On the Most viewed Configuration tab, the Most Viewed Product magento 2 extension allows store owners to enable or disable the module from admin. go to **Solwin >> Most Viewed Products >> Configuration**.

**Note:**

*For Boost Performance, Magento 2.3.4 or latest release covers below point:*

*Added the ability to disable statistic collecting for the Reports module by default. A new configuration setting (System Configuration > General > Reports > General Options) allows merchants to completely or partially disable Magento Reports.*

*For "Most Viewed products" extension uses products to view statistic details. For this the store admin needs to set Enable Reports and Enable "Product View" Report both options as Yes from Configuration >> General >> Reports >> General Options, Once the setting is enabled and after that, all the products that will be viewed in the front end will be a showcase as most viewed products in Most Viewed Product Page.*
