Product Zoom

[Installation/User Guide](#)

Installation Process:

Note: Please take a backup of your all Magento files and database before installing or updating any extension.

Extension Installation:

- Download the Product Zoom .ZIP file from the Magento account.
- Log in to the Magento server (or switch to) as a user, who has permission to write to the Magento file system.
- Create folder structure **/app/code/Solwin/Productzoom/** to your site root directory
- Extract the contents of the .ZIP file to the folder you just created
- Navigate to your store root folder in the SSH console of your server:
- Run upgrade command as specified : **php bin/magento setup:upgrade**
- Run deploy command as specified : **php bin/magento setup:static-content:deploy -f**
- Clear the cache either from the admin panel or command line **php bin/magento cache:clean**
- Now, you can see the Solwin menu in the admin panel. Please go to **Solwin -> Product Zoom -> Configuration** and select **Enable** to Yes.
- Change/Set all other options as per your requirements and save settings.

Overview:

Product Zoom Magento 2 extension is best suited to provide product zoom functionality over the product detail page for product images. The Customers can instantly view the product image with zoom preview without clicking on images and wait for the popup. Using JavaScript, the zoomed image shows on mouseover when the user hovers on the small image. Very easy to configure it fit website design without a problem and it works in all major browsers, including the iPad and iPhone.

Product Zoom extension provides main three zoom types: Basic Zoom, Inner Zoom, Lens Zoom.

1) Basic Zoom: This zoom type contains window/basic zoom options like

- Zoom window height and width.
- Tint effect with tint color and tint opacity.
- Zoom window position.
- Zoom effect.

2) Inner Zoom:

- The zoom can be placed inside of the image.
- Zoom effect.

3) Lens Zoom:

- Zoom lens shape(Round or Square).
- Zoom lens size.
- Zoom effect.

Key Features:

The Extension provides the following features:

- Easy to install and manage.
- Supports all major browsers.
- The store owners can easily set tints for the zoom, set the color and opacity of the tint overlay value.
- Store admin can set Lens Fade In/Out speed, Lens shape, and Lens size for Lens zoom type.
- From the admin control panel, store admin can set zoom window Width/Height, window position, and window Fade In/Out speed for Basic zoom type.
- The store owner easily set the Gallery Position from the admin control panel.

Admin control panel:

In the admin control panel, Go to **Solwin >> Product Zoom >> Configuration** menu, **Product Zoom Magento2 extension** allows the store owner to enable or disable the module in the store and provide more configuration options for product zoom.

There are some configuration options in the Settings tab. Let's discuss all in more detail.

The store owner can set product zoom with Basic Zoom by doing following settings.
