[Installation/User Guide](#)

Installation Process:

Note: Please take a backup of your all Magento files and database before installing or updating any extension.

Extension Installation:

- Download the Scroll To Top .ZIP file from the Magento account.
- Log in to the Magento server (or switch to) as a user, who has permission to write to the Magento file system.
- Create folder structure **/app/code/Solwin/ScrolltoTop/** to your site root directory
- Extract the contents of the .ZIP file to the folder you just created
- Navigate to your store root folder in the SSH console of your server:
- Run upgrade command as specified : **php bin/magento setup:upgrade**
- Run deploy command as specified : **php bin/magento setup:static-content:deploy -f**
- Clear the cache either from the admin panel or command line **php bin/magento cache:clean**
- Now, you can see the Solwin menu in the admin panel. Please go to **Solwin -> Scroll to Top -> Configuration** and select **Enable** to Yes.
- Change/Set all other options as per your requirements and save settings.

Overview:

Scroll To Top Magento 2 Extension allows customers to scroll up a page from bottom to top with one simple click. The Scroll Top button is visible only when the page is scrolled down. Scroll To Top Magento 2 Extension helps customers to navigate to the top of the page easily and nicely in the long-pages design of e-commerce websites. Requires no changes in Magento 2 core files. Easily set scroll to top link in the left or right position from admin settings. Easily set an image for scroll to top link from admin settings. Smooth scrolling from bottom to top with one simple click.

Key Features:

Extension provides below features:

- Scroll up pages with one simple click.
- Adds a smooth scrolling effect.
- Set in the left or right position for Scroll to Top link.
- Set Text for Scroll to top link.
