

[Live Demo](#)

Size Chart

[Installation/User Guide](#)

Installation Process:

Note: Please take a backup of your all Magento files and database before installing or updating any extension.

Extension Installation:

- Download the Product Sizechart .ZIP file from Magento account.
- Log into the Magento server (or switch to) as a user, who has permissions to write to the Magento file system.
- Create folder structure **/app/code/Solwin/Sizechart/** to your site root directory
- Extract the contents of the .ZIP file to the folder you just created
- Navigate to your store root folder in the SSH console of your server:
- Run upgrade command as specified : **php bin/magento setup:upgrade**
- Run deploy command as specified : **php bin/magento setup:static-content:deploy -f**
- Clear the cache either from the admin panel or command line **php bin/magento cache:clean**
- Now, you can see the Solwin menu in admin panel. Please go to **Solwin -> Size Chart -> Configuration** and select **Enable** to Yes.
- Change/Set all other options as per your requirements and save settings.

Overview:

Size Chart – Magento 2 extension allows the store admin to easily add a new size chart image from the admin and each size chart can be assigned to the product separately.

Easily manage with a fancy box jquery. Display size chart with two options (In Popup & On-Page) on the product view page. Easily add any custom size chart content using WYSIWYG editor.

Size chart is really very helpful to customers to find that item fits them and avoid returns.

The store admin can set to display the size chart in the tab or not.

Key Features:

The extension provides below features:

- Easy to install and manage.
- The store admin can add the size chart icon and Text to show in the frontend.
- Easily add any custom size chart content using WYSIWYG editor.
- Easily manage with fancy box jquery.
- Add the size chart link on the product view page.
- Display size chart with two options (In Popup & On-Page) on the product view page.
- The store Admin can add a description of necessary measurements for selected products.

Admin control panel:

To add a size chart, first of all, create a new attribute for size chart under **STORES >> Attributes >> Products**.

From Properties tab, give Default label, Catalog input type for store owner and Add attribute value like,

In the admin control panel from **Solwin >> Size Chart >> Configuration** menu, **Size Chart Magento 2 extension** allows store owners to enable or disable the module in the store and provide more configuration options for the size chart. There are some configuration options in the Size chart tab. Let's discuss all in more detail.

General

Enable [store view]

Sizechart Attribute Code [global]
 Create and give the code of attribute which you want to use as sizechart. E.g sizechart

Sizechart Display Option [store view]
In Popup: Sizechart Open in Popup Box
On Page: Size Chart will be Shown On Product Detail Page.

Show In Tab [store view]

Front End Name [store view]
 Set Front End Name

Image For Frontend [store view]

No file selected.

☐ Delete Image

- **Enable:** Yes | No.
- **Sizechart Attribute Code:** Enter the attribute code that the store owner has already created for the size chart.
- **Sizechart Display Option:** In Popup | On Page.
- **Show In Tab:** Yes | No.
- **Front End Name:** This is displayed on the product detail page.
- **Image For Frontend:** Icon for size chart link. Allowed file types: jpg, jpeg, gif, png.

In the admin control panel, go to **Solwin >> Size Chart >> Manage Sizechart** to manage size chart
