

# Static Block Import/Export

## Installation/User Guide

## Static Block Import/Export

### Installation Process:

**Note:** Please take a backup of your all Magento files and database before installing or updating any extension.

### Extension Installation:

- Download the Static Block Import/Export .ZIP file from the Magento account.
- Log in to the Magento server (or switch to) as a user, who has permission to write to the Magento file system.
- Create folder structure **/app/code/Solwin/StaticBlockImportExport/** to your site root directory
- Extract the contents of the .ZIP file to the folder you just created
- Navigate to your store root folder in the SSH console of your server:
- Run upgrade command as specified : **php bin/magento setup:upgrade**
- Run deploy command as specified : **php bin/magento setup:static-content:deploy -f**
- Clear the cache either from the admin panel or command line **php bin/magento cache:clean**
- Now, you can see the Import/Export Static Blocks option in the System tab. Please go to **SYSTEM -> Data Transfer -> Import/Export Static Blocks**.

### Overview:

Magento2 Static Block Import/Export extension allows store owners to import and export all static blocks with all related fields. It makes it easy to transfer a static block without any core file change. The Magento2 Static Block Import/Export extension allows store owners to import and export Magento static block via CSV format. It is also used to update and maintain existing static blocks and can be very useful for medium to large sites that could have hundreds of static blocks. It is the fastest way to bulk edit and manage the amount of data.

### Key Features:

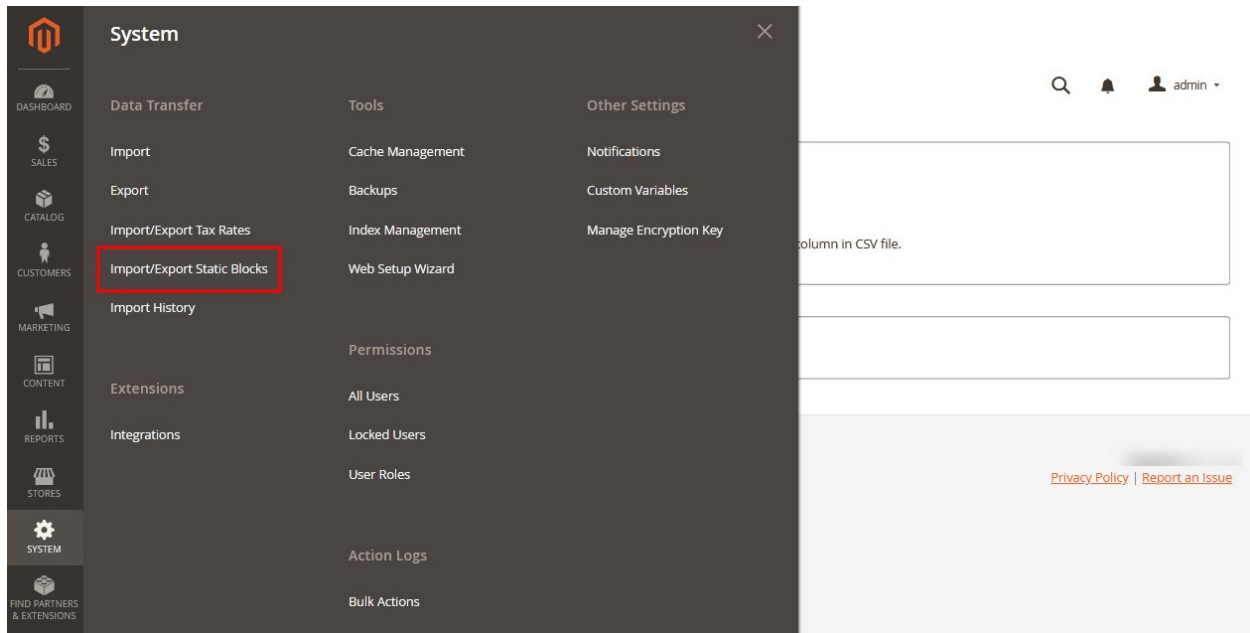

The extension provides below features:

- Easy to install and use.
- Import/Export static block with all related data.
- Easy to transfer static block from an old site to a new site.
- No core file changed.
- Import all static blocks by just one click.

## Static Block Import/Export

### Admin control panel:

At the admin control panel, the store owner can find a menu in **SYSTEM >> Data Transfer >> Import/Export Static Blocks**.

When the store owner clicks on that menu, import/export static blocks panel will be displayed

## Static Block Import/Export

Import and Export Static Blocks

Import Static Blocks

[Browse...](#) No file selected.

Note: If you want to add static block in more than one store then add store id with comma separated value in stores column in CSV file. Please enter unique id in block\_id column in CSV file.

Export Static Blocks

[Export Static Blocks](#)

Opening export\_static\_block.csv

You have chosen to open:

**export\_static\_block.csv**  
which is: Microsoft Office Excel Comma Separated Values File  
from: http://m234checkmagento.solwininfotech.com

What should Firefox do with this file?

Open with [Microsoft Office Excel \(default\)](#)

[Save File](#)

Do this automatically for files like this from now on.

[OK](#) [Cancel](#)

[Privacy Policy](#) | [Report an Issue](#)

For Import new static blocks, select CSV file using **Browse** button and click on **Import Static Block** button

## Static Block Import/Export

Here an example of an excel sheet, going to Import a static block named Solwin Block.

	A	B	C	D	E	F	G	H
1	block_id	title	stores	identifier	content	is_active	creation_time	update_time
2					<ul class="footer links"> <li class="nav item"><a href="{{store url="about-us"}}>About us</a></li>			
3	1	Footer Links Block	0	footer_links_block		1		
4	2	Contact us info	0	contact-us-info		1		
5	3	Sale Left Menu Block	0	sale-left-menu-block		1		
6	4	Gear Left Menu Block	0	gear-left-menu-block		1		
7	5	Men Left Menu Block	0	men-left-menu-block		1		
8	6	Login Info Block	0	login-data	<div class="message info" style="margin-top: 50px;">	1		
9	7	Solwin Block	0	solwin_block	<p style="text-align: right;">the industry's standard</p>	1		
10								
11								
12								
13								
14								
15								

On successful import of the new static block, the store owner will get a success message.
