

Delivery Date And Time Documentation

Functionality:

This is a Magento 2 module that adds a date and time field on the Magento 2 one page checkout page where the customer can choose his expected delivery date and time for the order to be delivered to him. Admin can check the expected delivery date and time on the order details page.

Steps to install this module:

- composer require "sourabhcoder/deliverydateandtime:1.0.0"
- php bin/magento setup:upgrade
- Go to magento backend Sales menu.
- Click on the on the Orders Sub menu.
- Choose any order from the grid and open it to see its details.
- In the order details page on the top of the page you can find the customers expected delivery date and time.
