

# FEATURED PRODUCTS

---

## USER GUIDE

*Version 1.0.0*

Welcome to Featured Products Extension for Magento 2 developed by Sparsh.

We have provided this guide to understand better use of the extension. We have tried to explain the basic functionality required by every Magento store.

This extension is used to display products as Featured Products on your storefront. You can use it anywhere like the home page or any other pages using block and widget so customers can view and buy it.

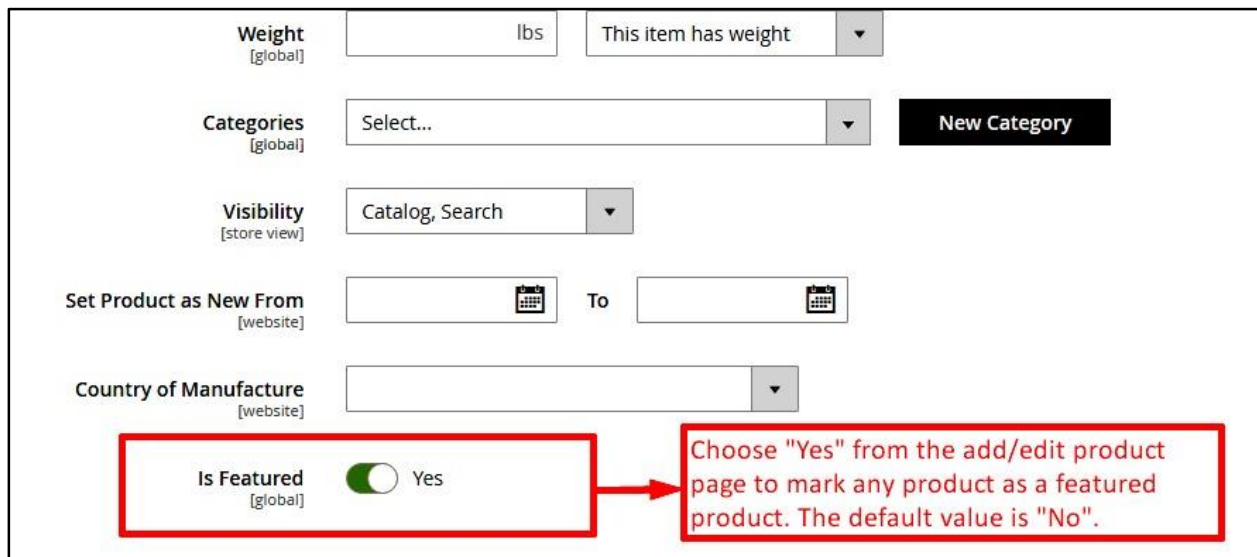

**Every below steps helps to show featured products on your site**

## 1. HOW TO DEFINE PRODUCT AS FEATURED PRODUCT

Go to [Magento 2 Admin] > Login > Catalog > Products > Add / Edit Product

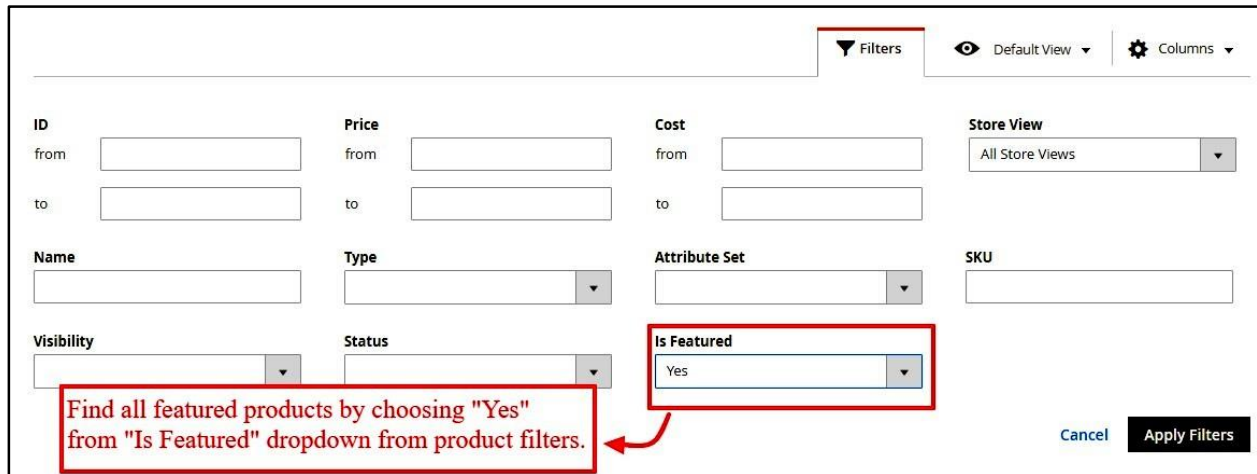

There will be an attribute shown named: Is Featured

By default, it's disable. Click on it to make it enable as shown in below image.

The screenshot shows the 'Add/Edit Product' form in the Magento 2 Admin. The 'Is Featured' attribute is highlighted with a red box. The attribute is currently set to 'No' (the toggle switch is off). A red arrow points from the 'Is Featured' attribute to a red box containing the text: 'Choose "Yes" from the add/edit product page to mark any product as a featured product. The default value is "No".'

You can also find all featured products by filtering with attribute "Is Featured" as shown in below image.

Filters

Default View Columns

ID from to Name Visibility

Price from to Type Status

Cost from to Attribute Set

Store View All Store Views

SKU

Is Featured Yes

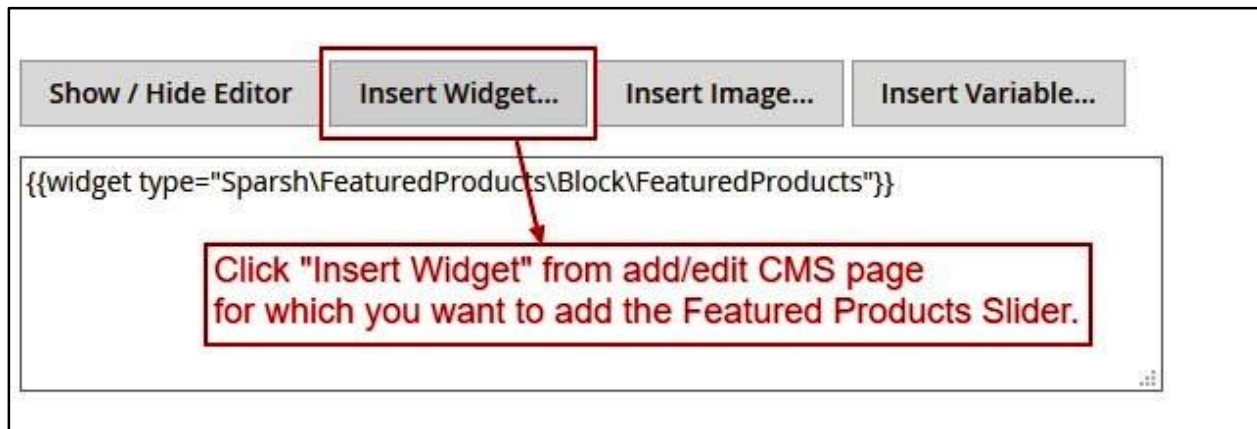

Cancel Apply Filters

Find all featured products by choosing "Yes" from "Is Featured" dropdown from product filters.

## 2. HOW TO ADD FEATUED PRODUCT WIDGET SLIDER FOR GIVEN CMS PAGE

Go to [Magento 2 Admin] > Login > Content > Elements > Pages > Add / Edit Page

Open "Content" > Click on "Show / Hide Editor" button > Click on "Insert Widget" button

Show / Hide Editor Insert Widget... Insert Image... Insert Variable...

```
{{widget type="Sparsh\FeaturedProducts\Block\FeaturedProducts"}}
```

Click "Insert Widget" from add/edit CMS page for which you want to add the Featured Products Slider.

Choose Widget Type as "Featured Products Slider" > Click on "Insert Widget" button

Inserting a widget does not create a widget instance.

Widget Type \* Featured Products Slider  
Sparsh Featured Products Slider

Choose "Featured Products Slider" widget type to display on the frontend for given CMS page

### 3. STORE FRONT VIEW

Clear cache from System > Tools > Cache Management if required.

Showing your featured products like below on storefront.
