

Integrating your online store based on Magento with a platform like Storepep can make things easier for you. It is a one-stop solution for all your shipping needs. However, before integrating, there are some steps you need to follow. Integrating an online Magento store with Storepep requires you to enter the API keys for your online store. In this article, we will cover the steps you need to follow to get the API keys for your store. And once done, we will see how you can integrate your online Magento store with StorePep.

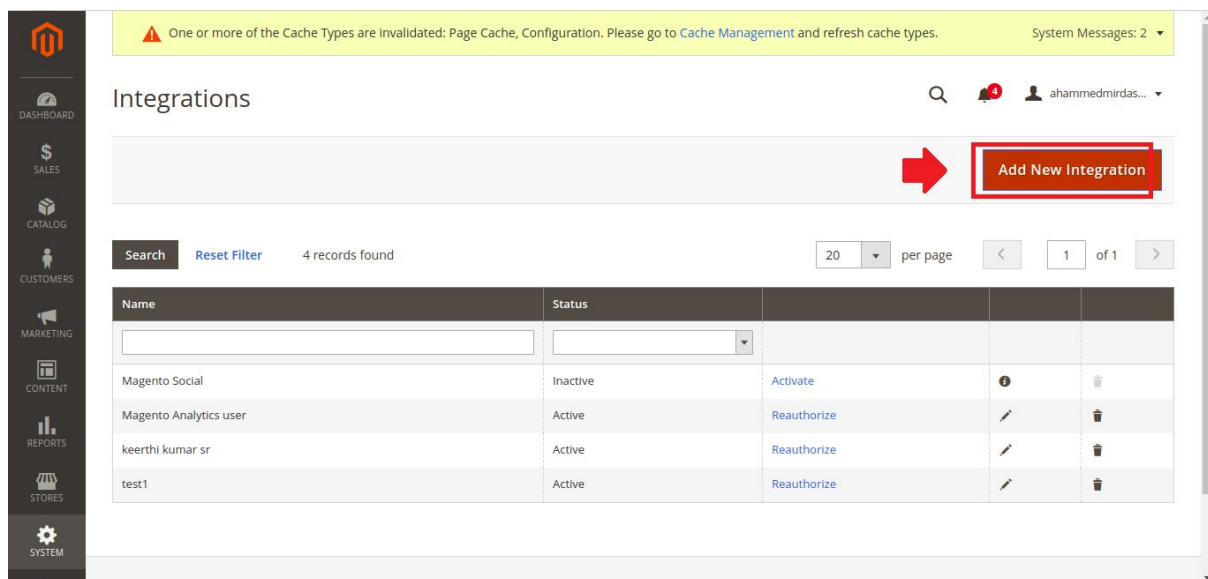

## Get API Keys From Your Magento Store

### Step 1.) Goto System >> Integrations

Magento Integration Settings

### Step 2.) Click on Add New Integrations

## Adding New Integration

Here you will see all your integrations along with the status. The active integration means that you have successfully generated the API Key for that integration.

### Step 3.) Enter Name and Email ID

One or more of the Cache Types are Invalidated: Page Cache, Configuration. Please go to [Cache Management](#) and refresh cache types. System Messages: 2

### New Integration

← Back **Save**

**BASIC SETTINGS**

- Integration Info
- API

**General**

**Name \*** storepepApi

**Email**

**Callback URL**

**Identity link URL**

Enter URL where OAuth credentials can be sent when using OAuth for token exchange. We strongly recommend using https://.

URL to redirect user to link their 3rd party account with this Magento integration credentials.

magento-165470-477772.cloudwaysapps.com/admin/admin/integration/new/key/f16774bc49b552705cd023510b7b3df4ab0f7948219b78adfe29b1ccfb0f2f0e/#integration\_edit\_tabs\_api\_section\_c...

## Enter Name and Email

To add an integration you need to provide the name and an Email ID. For StorePep integration, you can name it as storepep.

### Step 4.) Select All API Resources Access

One or more of the Cache Types are Invalidated: Page Cache, Configuration. Please go to [Cache Management](#) and refresh cache types. System Messages: 2

### New Integration

← Back **Save**

**BASIC SETTINGS**

- Integration Info
- API

**Available APIs**

**Resource Access** All

Copyright © 2018 Magento Commerce Inc. All rights reserved. **Magento** ver. 2.2.2 [Report an Issue](#)

## Provide Resource Access

Here you can choose which resources you want to be used with the help of the API Key that will be generated. We recommend providing a complete resource access to integrate with StorePep. Once you have provided the access, click on **Save**.

## Step 5.) Activate StorePep Integration

The screenshot shows the 'Integrations' page in a Magento 2.2.2 admin interface. A yellow notification banner at the top indicates that the integration 'storepepApi' has been saved. Below the banner, there is a search bar and a table listing integrations. The table has columns for Name, Status, and actions. The 'storepepApi' integration is listed as 'Inactive'. A red box highlights the 'Activate' button in the actions column, and a red arrow points to it. A tooltip 'Activate' is visible over the button. The footer of the page shows 'Copyright © 2018 Magento Commerce Inc. All rights reserved.' and 'Magento ver. 2.2.2'.

Name	Status	Actions
Magento Social	Inactive	Activate
Magento Analytics user	Active	Reauthorize
keerthi kumar sr	Active	Reauthorize
test1	Active	Reauthorize
storepepApi	Inactive	Activate

Activate Integration

Once you have saved the integration, it will appear among the list of integrations. To get the API Keys, click on **Activate**.

## Step 6.) Allow Access Permission

The screenshot shows the 'storepepApi' integration details page. A red box highlights the 'Allow' button, and a red arrow points to it. Below the button, there is a tree view showing the list of resources that the integration is requesting access to. The tree view is expanded to show the 'API' resource, which includes sub-resources like 'Dashboard', 'Analytics', 'API', and 'Sales'. The 'API' resource is highlighted with a red box.

- API
  - Dashboard
  - Analytics
  - API
  - Sales
    - Operations
    - Orders
      - Actions
        - Create
        - View
        - Send Order Email
        - Reorder
        - Edit
        - Cancel
        - Accept or Deny Payment
        - Capture
        - Invoice
        - Credit Memos
        - Hold
        - Unhold
        - Ship
        - Comment
        - Send Sales Email

List of resources

Once again, you will see all the resources the integration has access to. Click on **Allow** to proceed further.

## Step 7.) Get API Keys

The screenshot shows a dialog box titled 'storepepApi' with a close button (X) in the top right corner. Below the title bar, there is a 'Done' button highlighted with a red box and a red arrow pointing to it. The main content area is titled 'Integration Tokens for Extensions' and contains four rows of input fields, each with a red arrow pointing to it:

- Consumer Key: I3jqpfogjsv1tpv756ha7hjgbo4p7hbs
- Consumer Secret: 0wgopm28wp9n5sta9o2fgd7k4yxeh4ud
- Access Token: qlfexr8g2va2nm754855blgqtpgqap99
- Access Token Secret: uboi4fqnllyxrfkovghngch5895w4ondb

Integration Tokens

Once you proceed with the access, you will get the Access Keys for the integration.

## Step 8.) Integration Activation Successful

The screenshot shows the 'Integrations' page. At the top, there is a yellow notification bar with a warning icon and the text: 'One or more of the Cache Types are invalidated: Page Cache, Configuration. Please go to Cache Management and refresh cache types.' To the right of this bar is 'System Messages: 2'. Below the notification bar, there is a search bar, a notification bell icon with a red '4', and a user profile icon for 'ahammedmirdas...'. A red 'Add New Integration' button is located on the right side. Below this, a yellow notification bar with a checkmark icon contains the message: 'The integration 'storepepApi' has been activated.' Below the notification bar, there is a search bar, a 'Reset Filter' button, and the text '5 records found'. To the right of this text are pagination controls: '20 per page', '<', '1 of 1', and '>'. Below the pagination controls is a table with the following data:

Name	Status			
Magento Social	Inactive	Activate	View	
Magento Analytics user	Active	Reauthorize	View	
keerthi kumar sr	Active	Reauthorize	View	
test1	Active	Reauthorize	View	
storepepApi	Active	Reauthorize	View	

View Integrations

After getting the API Keys successfully, you can view the API Keys for the integration by clicking the **View** option.

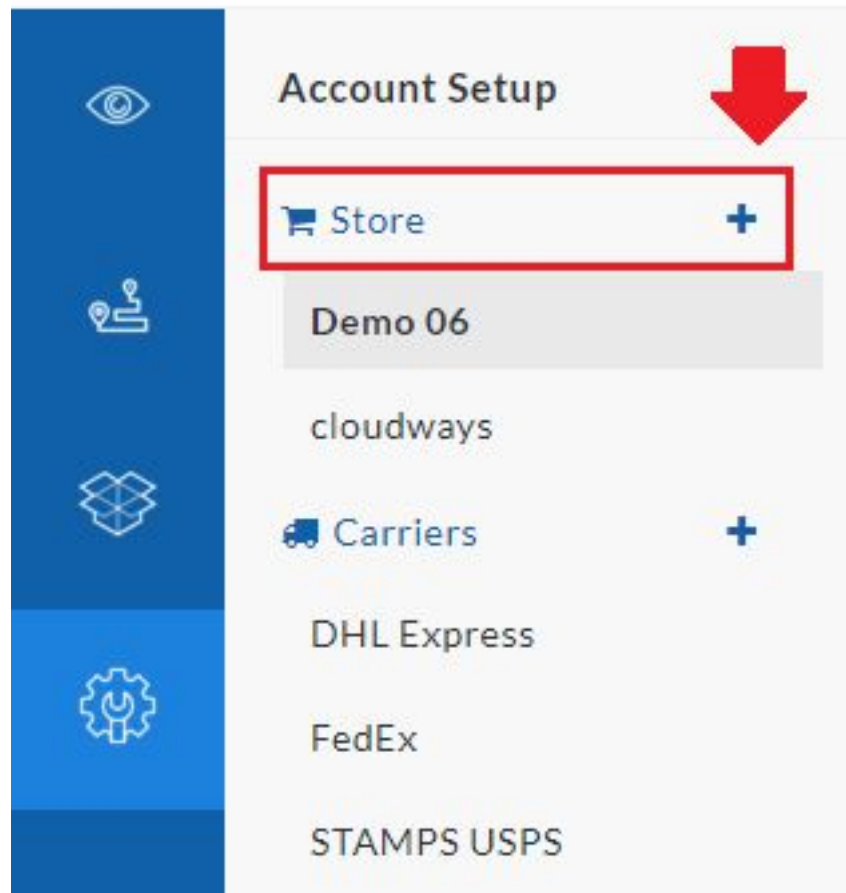

Enter API Key in StorePep  
Step 1.) Login to StorePep & visit Settings

Views	
All Orders	27
Processing	0
Label Created	6
Label Failed	0
Pickup
