

Responsive Cookie Consent

Responsive Cookie Consent is simple and responsive extension to display the cookie consent message for cookie usage by site. Once user clicks on "Close" button it disappears.

It helps you organise and display above information on your Magento site easily with small setup. It has below features:

- Simple and responsive extension to display the cookie consent message for cookie usage by site.
- Once user clicks on "Close" button it disappears for specified days, by default it is 31 days.
- You can place link for your privacy policy page from options available in backend.
- Easily change css/text/color of message by referring to below guide.

- To edit text message, color and link; go to System ->Configuration -> MNTS Infotech -> Cookie Consent and change the message you want in right hand side panel.
