

SwiftERM Installation & Configuration Instructions

1. Go to <https://account.swifterm.com/register> and register for an account.
2. Once you have completed the registration process you will receive an email with an API key.
3. Open Magento backend admin, and go to the Stores -> Settings -> Configuration -> SwiftERM tab -> SwiftERM Administration
4. Enter your API key as shown:

The screenshot shows the Magento Configuration page for SwiftERM Administration. At the top, there is a yellow warning banner: "Your web server is set up incorrectly and allows unauthorized access to sensitive files. Please contact your hosting provider." Below this, the page title is "Configuration" with a search icon and a user profile "admin". The "Scope" is set to "Default Config" and there is a "Save Config" button. The left sidebar contains a navigation menu with categories like Dashboard, Sales, Catalog, Customers, Marketing, Content, Reports, Stores, System, and Third Parties & Extensions. The main content area is titled "SwiftERM Administration" and includes instructions: "To start, please register at <http://swifterm.com> to receive your SwiftERM key." Below this, there is a "SwiftERM Key" field with a text input box containing a long alphanumeric string and a "Please input your SwiftERM key." label. The footer of the page shows "Copyright © 2021 Magento Commerce Inc. All rights reserved." and "Magento ver. 2.3.4" with links for "Privacy Policy", "Account Activity", and "Report an Issue".

Installation and configuration has been completed. The SwiftERM system will begin synchronizing with you website orders, products and customers. You don't need to do anything else.
