# Ajaxpro

Streamline add-to-cart function and remove interruptions from the shopping process

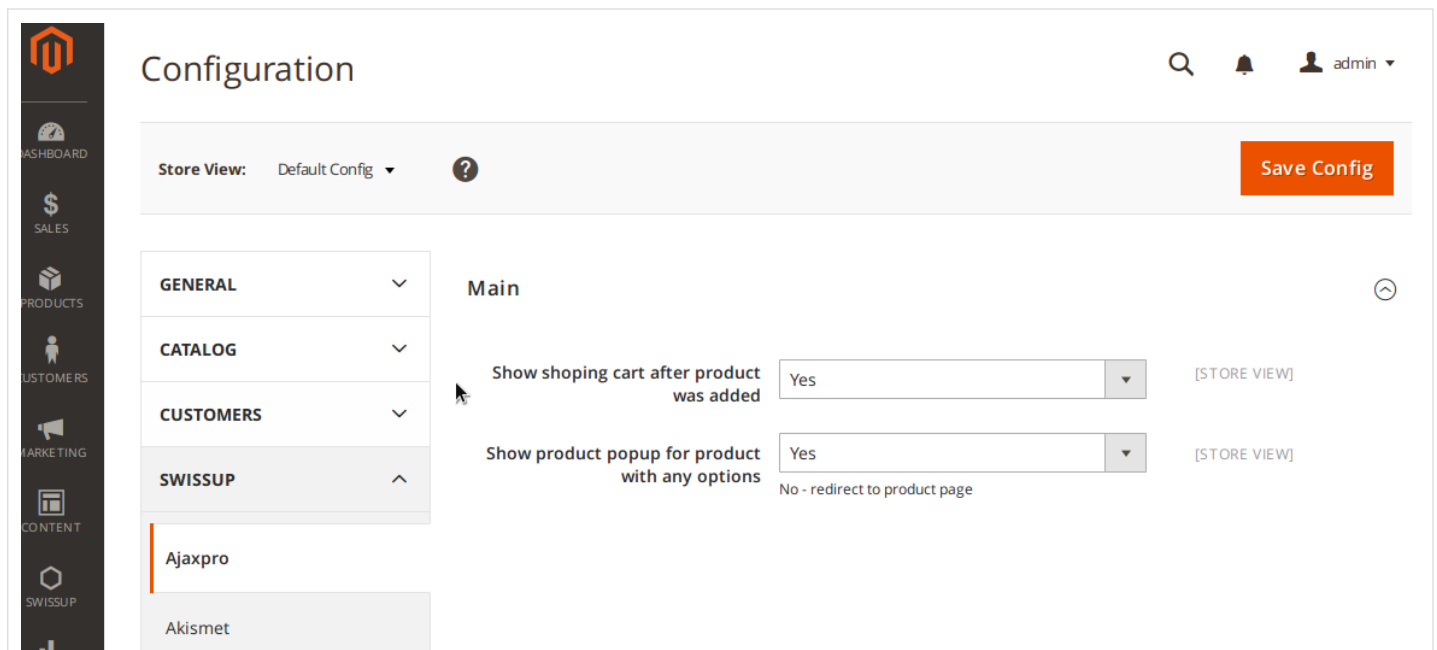

- Add-to-cart pop-up for selecting product options without going to product page
- Mobile friendly add-to-cart design adapts depending on a screen type
- Works for all product types including bundle, grouped, and configurable products
- Page reloads are eliminated from the process

## Contents

1. [Installation \(installation/\)](#)
2. [Configuration](#)
  - [Main](#)
3. [Changelog \(changelog/\)](#)

## Configuration

The screenshot shows the configuration page for the Ajaxpro extension. The page title is 'Configuration' and the user is logged in as 'admin'. The 'Store View' is set to 'Default Config'. A 'Save Config' button is visible in the top right corner. The left sidebar contains navigation options: DASHBOARD, SALES, PRODUCTS, CUSTOMERS, MARKETING, CONTENT, and SWISSUP. The main content area is titled 'Main' and contains two configuration options:

- Show shopping cart after product was added**: Set to 'Yes' [STORE VIEW]
- Show product popup for product with any options**: Set to 'Yes' [STORE VIEW] with a note: 'No - redirect to product page'

At the bottom of the sidebar, the installed extensions 'Ajaxpro' and 'Akismet' are listed.

---

## Main

- Show shopping cart modal window after product was added. Default Yes.
- Show product popup window for product with options on category pages. Defaults Yes.
