This image shows a dark-themed shipping address form. The title "1 Shipping Address" is in white. The email field is labeled "Email Address \*" and contains the text "susy@firecheckout.net". Below the field is a note: "You can create an account after checkout." At the bottom, there is a checkbox labeled "Subscribe to Newsletter".

1 Shipping Address

Email Address \*

susy@firecheckout.net

You can create an account after checkout.

This image shows a light-themed shipping address form. The title "1 Shipping Address" is in blue. The email field is labeled "Email Address \*" and contains the text "susy@firecheckout.net". Below the field is a note: "You can create an account after checkout." There is no checkbox at the bottom.

## Form Styles

There are 3 form **modes** available:

- Horizontal (Label aside of the field)
- Basic (Same as horizontal, except label above the field)
- Compact (Multiple fields per row. [How to change field size?](#))

First Name *	<input type="text" value="Jim"/>
Last Name *	<input type="text" value="Bean"/>
Company	<input type="text"/>
Street Address	<input type="text" value="11 Centre Street"/>
	<input type="text"/>

First Name *	<input type="text" value="Jim"/>
Last Name *	<input type="text" value="Bean"/>
Company	<input type="text"/>
Street Address	<input type="text" value="11 Centre Street"/>
Street Address 2	<input type="text"/>

First Name *	<input type="text" value="Jim"/>	Last Name *	<input type="text" value="Bean"/>
Company	<input type="text"/>		
Street Address	<input type="text" value="11 Centre Street"/>		
Street Address 2	<input type="text"/>		
Country	<input type="text" value="United States"/>	Zip/Postal Code *	<input type="text" value="10007"/>

**Use field placeholders instead of labels** - You can hide labels and use field placeholders instead. This option works together with **Basic** and **Compact** modes only:

First Name *	Last Name *
Brenda	Johnson
Use Business Address	
<input type="checkbox"/> Use Business Address	
Street Address *	Housenumber *
2722 Hudson Pl	12

First Name *	Last Name *
Brenda	Johnson
<input type="checkbox"/> Use Business Address	
Street Address *	Housenumber *
2722 Hudson Pl	12
Country	Zip/Postal Code
United Kingdom	55125
City *	Phone Number
Woodbury	(888) 317-9222 

**Show field errors and notices in the Tooltips** - Allows you to switch between awesome Tooltips mode and Magento's old-school notices and errors below the fields:

Zip/Postal Code 55125	City * Woodbury
--------------------------	--------------------

 Provided Zip/Postal Code seems to be invalid. Example: AB12 3CD; A1B 2CD; AB1 2CD; AB1C 2DF; A12 3BC; A1 2BC. If you believe it is the right one

Use Business Address

Provided Zip/Postal Code seems to be invalid. Example: AB12 3CD; A1B 2CD; AB1 2CD; AB1C 2DF; A12 3BC; A1 2BC. If you believe it is the right one you can ignore this notice.

Zip/Postal Code 55125 	City * Woodbury
Phone Number (888) 317-9222 	Fax

**Title**  
[store view]

Order Review

Leave empty to add review without the title

Option	Description
--------	-------------

Option	Description
Show Order Review	Show order review information (Shipping Address and Shipping Method) above the cart items.
Title	Set the title for order summary section

## Custom CSS and JS settings section

### Custom CSS and JS ⌵

**CSS**  
[store view]

**LESS**  
[store view]

```
@fc__accent-color: #000;
```

Use less syntax and variables to change styles!  
See the list of available variables:  
<http://docs.swissuplabs.com/m2/extensions/firecheckout/customization/less-variables/>  
You must run `setup:static-content:deploy` command to see the changes.

**JS**  
[store view]

```
require([
  'Magento_Ui/js/lib/view/utils/async'
], function($) {
  'use strict';

  var expandables = [
```

Option	Description
CSS	CSS styles. LESS is not supported.
LESS	CSS styles with LESS syntax support.
JS	JS code

## Attention!

Unlike js code inserted into custom.js file (begins with “define” function), code inserted in JS section begins with “require” function.

JS code example:

```
require([
    'Magento_Ui/js/lib/view/utils/async'
], function($) {
    'use strict';

    var expandables = [
        '.discount-code',
        '.order-attachments'
    ];

    $.async({
        selector: expandables.join(','),
        ctx: $('.checkout-container').get(0)
    }, function (el) {
        setTimeout(function() {
            $(el).collapsible('activate');
        }, 500);
    });
});
```
