- **jQuery Selector For Base Image Wrapper** - jQuery selector allow to wrap of base image on product page
- **jQuery Selector For Content Labels Container** - jQuery selector to insert the content labels to any place of the product page

General

Cron Daily Labels Reindex <small>[store view]</small>	Enable <input type="button" value="▼"/>
jQuery Selector For Base Image Wrapper <small>[store view]</small>	<input type="text" value=".fotorama__stage"/>
jQuery Selector For Content Labels Container <small>[store view]</small>	<input type="text" value=".product-info-main"/>

On Sale settings

SALE labels are the cost-effective way to mark store sales and attract visitors attention. They are shown on discounted and on-sale products. Using On Sale labels you catch customers attention to the promotional items.

Product and Category Page Configuration

- **Enable** - select **Yes** to enable **On Sale Label**

- **Position** - select the position of the label
- **Label Text** - in this field you are allowed to write the text for the label. Also you can use a few predefined extension variables to choose from
For example : Save#discount_percent#% (Save is the word you selected by yourself , #discount_percent# - predefined variable)
- **Image** - upload the image of the label
- **Custom Label** - custom css style for label
- **Label Custom Url** - custom url for label (open in new tab)
- **Round Method** - select the method of computing rounded unit of final result. Possible values are Math, Ceil and Floor.
- **Round Value** - specify the rounded value
