

# Installation Guide

**for Magento 2**

1. Choose the installation method.

### **1.1 Using Module Manager from the Magento Admin.**

1.1.1 Log into your Magento 2 admin area.

1.1.2 Then, follow the steps described here:

<http://devdocs.magento.com/guides/v2.2/comp-mgr/module-man/compman-start.html>

### **1.2 Downloading and pasting method.**

1.2.1 Press "Download" to download a module zip file.

1.2.2 Connect to your server via FTP or SSH.

1.2.3 Change your directory to your magento 2 root.

1.2.4 Create folder "SyncSpider" under ``<magento2-root>/app/code``

1.2.5 Create folder "APlextension" under ``<magento2-root>/app/code/SyncSpider``

1.2.6 extract the module zip file in the folder ``<magento2-root>/app/code/SyncSpider/APlextension``

1.2.7 Connect to your server via SSH.

1.2.8 Execute the following commands:

1.2.8.1 *change directory to your magento 2 root folder* - ``cd <magento2-root>``

1.2.8.2 *enable maintenance mode* - ``php bin/magento maintenance:enable``

1.2.8.3 *enable the module* - ``php bin/magento module:enable`

`SyncSpider_APlextension``

1.2.8.4 *upgrade database with module information* - ``php bin/magento setup:upgrade``

1.2.8.5 *deploy static view file where <locale-list> is list with all the languages your store uses, for example, de\_DE en\_US* - ``php bin/magento setup:static-content:deploy <locale-list>``

1.2.8.6 *clean the cache* - ``php bin/magento cache:clean``

1.2.8.7 *disable maintenance mode* - ``php bin/magento maintenance:disable``

### **1.3 Installing using a composer.**

1.3.1 Select "Technical details" under the "Download" button.

1.3.2 Copy "Component name".

1.3.3 Connect to your server via SSH.

1.3.4 Execute the following commands:

1.3.4.1 *change directory to your magento 2 root folder* - ``cd <magento2-root>``

1.3.4.2 *enable maintenance mode* - ``php bin/magento maintenance:enable``

1.3.4.3 *require the module package* - ``composer require "<Previously copied component name>" --no-dev``

1.3.4.4 *enter credentials if necessary*

1.3.4.5 *enable the module* - ``php bin/magento module:enable`

`SyncSpider_APlextension``

1.3.4.6 *upgrade database with module information* - ``php bin/magento setup:upgrade``

1.3.4.7 deploy static view file where <locale-list> is list with all the languages your store uses, for example, de\_DE en\_US - `php bin/magento setup:static-content:deploy <locale-list>`

1.3.4.8 clean the cache - `php bin/magento cache:clean`

1.3.4.9 disable maintenance mode - `php bin/magento maintenance:disable`

## 2. After that, log into your Magento 2 admin area.

The image shows the Magento 2 admin login interface. At the top left is the Magento logo, consisting of an orange hexagon with a white 'M' inside, followed by the word 'Magento' in a black sans-serif font. Below the logo, the text 'Welcome, please sign in' is displayed in an orange color. There are two input fields: the first is labeled '\* Username' and the second is labeled '\* Password'. Below the password field is a blue link that says 'Forgot your password?'. At the bottom of the form is an orange rectangular button with the text 'Sign in' in white.

You are all **set** now! You may start using **SyncSpider** by **logging** in to <https://www.syncspider.com/>
