

# SzMake Extension

**"Hide Price Zero Decimal" Module**

## **Installation Guide**

**for Magento 2.x**

[www.szmake.net](http://www.szmake.net)

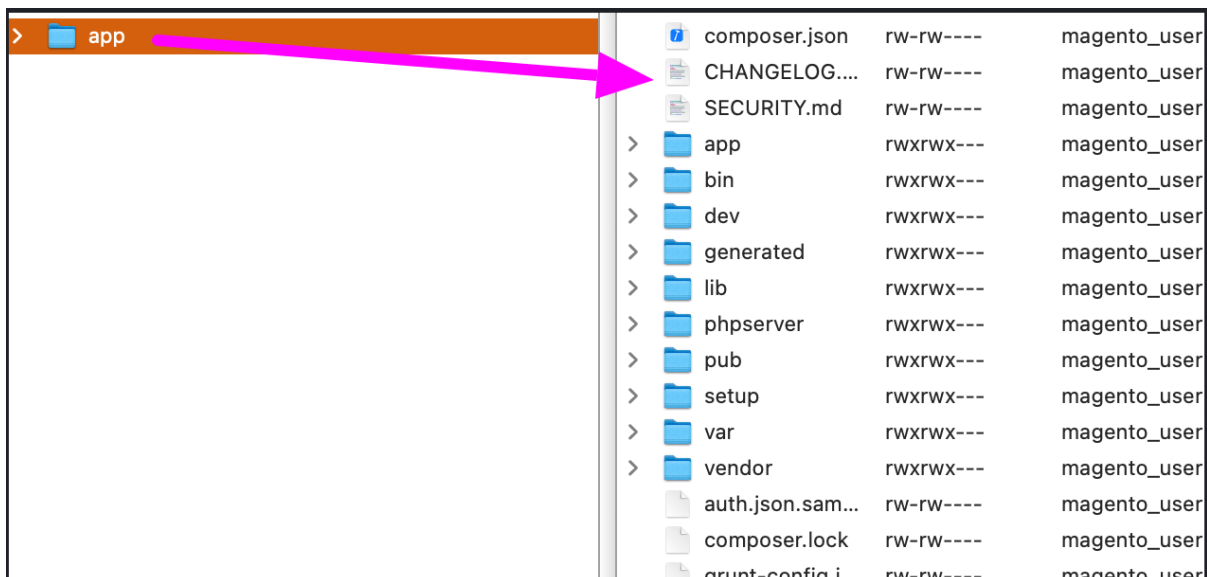

# Installation:

1. Unzip the ZIP file extension on your computer.

2. Connect to your Magento website source folder with FTP/SFTP client and upload all the files and folders from the extension package to the corresponding root folder of your Magento installation:

[\*IMPORTANT]

***Please use the "Merge" upload mode. Do not "Replace" the whole folders. This way your FTP/SFTP client will only add new files. This mode is used by default by most FTP/SFTP clients software.***

3. Connect to SSH console of your server:

- Navigate to root folder of your Magento 2 setup
- Run command  
`php -f bin/magento module:enable SzMake_HidePriceZeroDecimal`
- Run command  
`php -f bin/magento setup:upgrade`
- Run command (\*If the current mode is Developer, this command is not required.)  
`php -f bin/magento setup:static-content:deploy`
- Run command  
`php -f bin/magento cache:flush`
- Flush store cache; log out from the backend and log in again
