

# TABLE CX Chat Widget for Magento 2

---

## Requirements

---

This module has been tested with:

- Magento Community Version 2.4
- PHP version 7.4
- Requires hash\_hmac and sha256 support

Should you require support for previous versions or have different requirements, contact TABLE support.

## Installation - Composer

---

In your projects main composer.json file, add this repository following the [instructions here](#). This will add this repository as a source to your project.

Then, run the command:

```
composer require TABLECX/Widget
```

Refer to Composer manual for more information.

## Installation - Manual

---

You can also copy the whole module to `/src/app/code/`.

The resulting file path should look like this: `/src/app/code/TABLECX/Widget`.

## Activating the Module

---

From the root of your Magento 2 installation, enter these commands in sequence:

```
bin/magento module:enable TABLECX_Widget  
bin/magento setup:upgrade  
bin/magento cache:clean
```

As a final step, check the module activation by running:

```
bin/magento module:status
```

The module should now appear in the list, in the section *List of enabled modules*.

## Configuration

---

Once the module is activated, you can find the configurations page under "Stores → Configuration → TABLE".

Here you can customise your widget settings, including enabling Identity Verification which authenticates your customers with TABLE automatically. You can find this secret in the TABLE dashboard.

The screenshot shows the 'Configuration' page for the 'TABLE' module. The page title is 'Configuration' and the user is logged in as 'peter'. The scope is set to 'Default Config'. A 'Save Config' button is visible in the top right corner. The left sidebar shows a navigation menu with 'TABLE' selected, and a sub-menu for 'Chat Widget Settings' with categories: GENERAL, CATALOG, SECURITY, CUSTOMERS, SALES, YOTPO, DOTDIGITAL, SERVICES, and ADVANCED. The main content area is titled 'General Configuration' and contains the following settings:

Module Enable (global)	Yes
Experience Short Code (global)	nh1TeS <small>You can get this in the Experiences section of the Admin area</small>
Workspace URL (global)	https://company.table.co <small>This is the complete URL of your TABLE installation, for example https://company.table.co</small>
Secret (global)	secret <small>Required to identify logged in users. Leave blank to disable logged in functionality</small>

At the bottom of the page, the footer contains the copyright notice: 'Copyright © 2020 Magento Commerce Inc. All rights reserved.' and the version information: 'Magento ver. 2.4.1' with links for 'Privacy Policy' and 'Report an Issue'.

Don't forget to clear your cache when making configuration changes.
