# INSTALLATION GUIDE FOR EASYPOST INTEGRATION VERSION 1.0.0

Prepared By  
TACT- TRENDSETTERZ IT SERVICES PVT LTD

# Installation Steps

---

To install the extension, follow the instructions below:

1. Backup your web directory and store database
  - a. Get the EasyPost name and version in your Marketplace account:  
Login to Magento Marketplace with the username and password you used to purchase the EasyPost extension.
  - b. Enter the My Purchases section: Your name (top-right corner of the page) > My Profile > My Purchases.
  - c. Find EasyPost and click Technical details.
2. Copy the provided component name and version in order to update your composer.json file. We advise you to use the latest version of our extension.
3. Update your composer.json file:  
Open the root Magento directory on your server and send Composer the following command:  

```
composer require <Tactconnect_EasyPost>:<version>
```
4. At the Composer request, enter your Magento marketplace credentials (public key - username, private key - password).
5. Make sure that Composer finished the installation without errors.
6. Flush store cache log out and log in the backend again.

The EasyPost extension is now installed.

Now run the below command in the Magento 2 root directory:

```
composer require easypost/easypost-php
```

Use [Magento Dev Docs](#) for more details.
