

iDEALplugins.nl – Extension for Magento 2

Installation

1. Set up a TargetPay account

Before you can use the plugin, please sign up for a TargetPay account on www.targetpay.com

Use our promotional code YM3R2A for a special discount on the transaction costs. Currently iDEAL is offered for 44 eurocent per transaction, all-inclusive without monthly or setup fees.

Note that the plugin can be used in a live environment only after it has been completed with your details and is approved by their compliance department. This would normally take about one working day.

2. Setting up

How to setup:

1. Extract the attachment zip into app/code

The path will be: app/code/Targetpay/Ideal or app/code/Targetpay/Mrcash, ...

2. Install new module using the following commands:

```
...  
php bin/magento setup:upgrade  
php bin/magento setup:di:compile  
...
```

3. Clean cache

```
...  
php bin/magento cache:flush  
...
```

4. Delete static cached if needed

```
...  
rm -rf var/* pub/*  
...
```

5. Enable payment methods in Magento admin

Go to Store > Configuration > Sale > Payment methods

Newly installed methods will be there
Enable them and check/uncheck test mode for testing

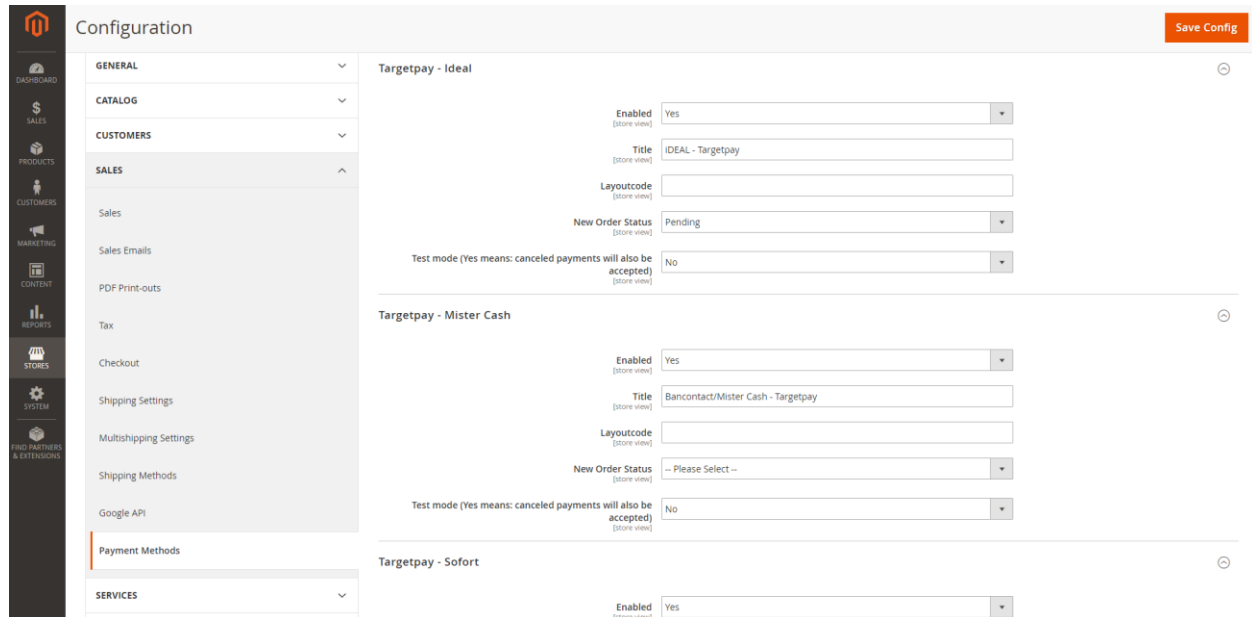

More detailed installation instruction is available on
https://www.idealplugins.nl/magento2#tab_install

3. Troubleshooting

Please see the FAQ on https://www.idealplugins.nl/magento2#tab_help

Configuration

Log into your administration panel and go to "Stores", "Settings", "Configuration", "Sales" > "Payment Methods" to configure your extension.

The screenshot shows the Magento 2 Configuration page for Payment Methods. The left sidebar contains a navigation menu with categories like DASHBOARD, SALES, PRODUCTS, CUSTOMERS, MARKETING, CONTENT, REPORTS, STORES, SYSTEM, and FIND PARTNERS & EXTENSIONS. The main content area is titled "Configuration" and has a "Save Config" button in the top right corner. Under the "SALES" section, the "Payment Methods" sub-section is active. Three payment methods are listed:

- Targetpay - Ideal**: Enabled (Yes), Title (IDEAL - Targetpay), Layoutcode, New Order Status (Pending), Test mode (No).
- Targetpay - Mister Cash**: Enabled (Yes), Title (Bancontact/Mister Cash - Targetpay), Layoutcode, New Order Status (Please Select --), Test mode (No).
- Targetpay - Sofort**: Enabled (Yes).

1. Description of configuration fields

- **Enabled:** This will allow you to activate/deactivate the module.
- **Title:** Title shown on front-end area.
- **Layoutcode:** This is your account number supplied by TargetPay and is used for identification of your account.
- **New Order Status:** Status used for new orders placed using this plugin.
- **Test mode:** Enable or disable test mode. When test mode is enabled you can test the order process by canceling a transaction and the extension will mark it as successful.
