

Connect or Disconnect Taximail for Magento 2

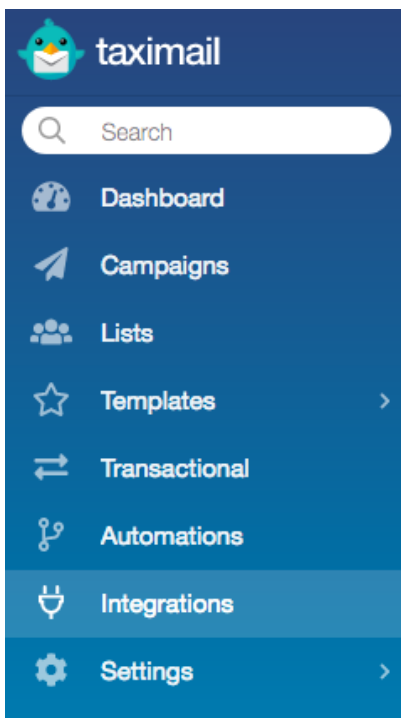

Taximail for Magento 2 is a free tool for create abandoned cart automation workflows.

Before You Start

- This is an advanced feature recommended for users familiar with the Magento 2 Component Manager. Contact your Magento expert or developer for assistance if you need to.
- You will need a Taximail account to get started. Click here for more detailed pricing information, <https://www.taximail.com/en/pricing>

Configure and Connect

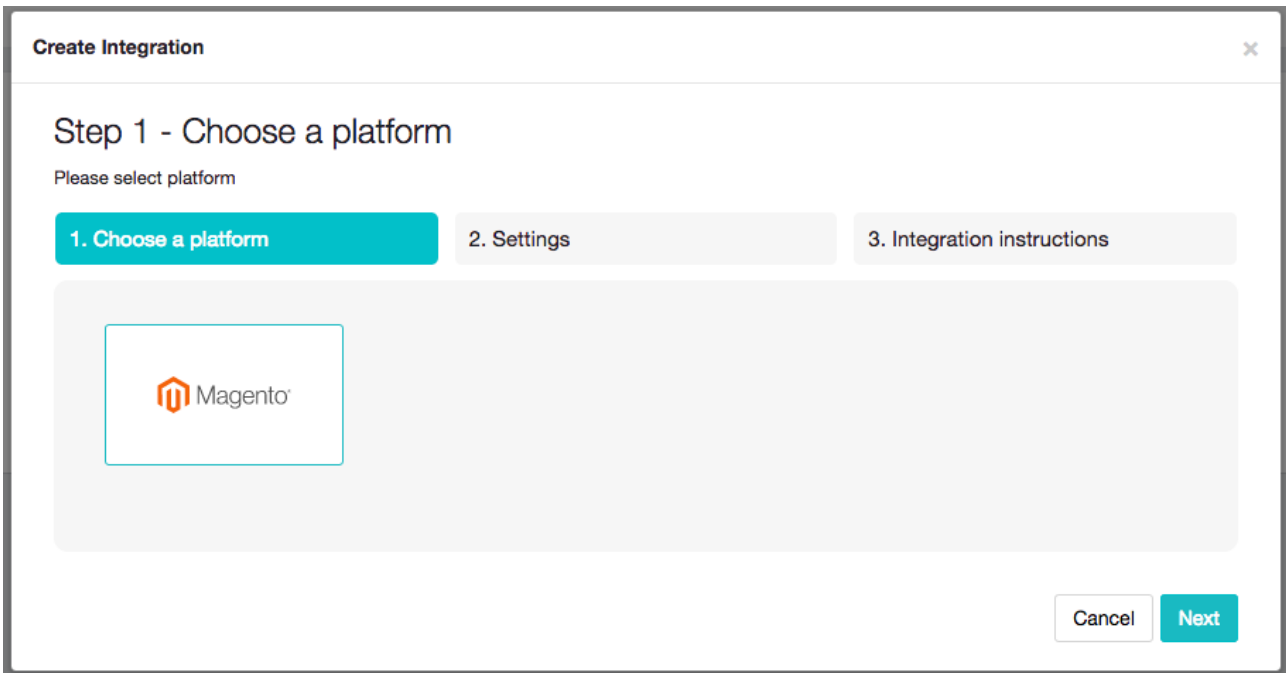

1. Navigate to your Taximail Dashboard.
2. Choose **Integrations** menu.

3. Click **Create Integration**.

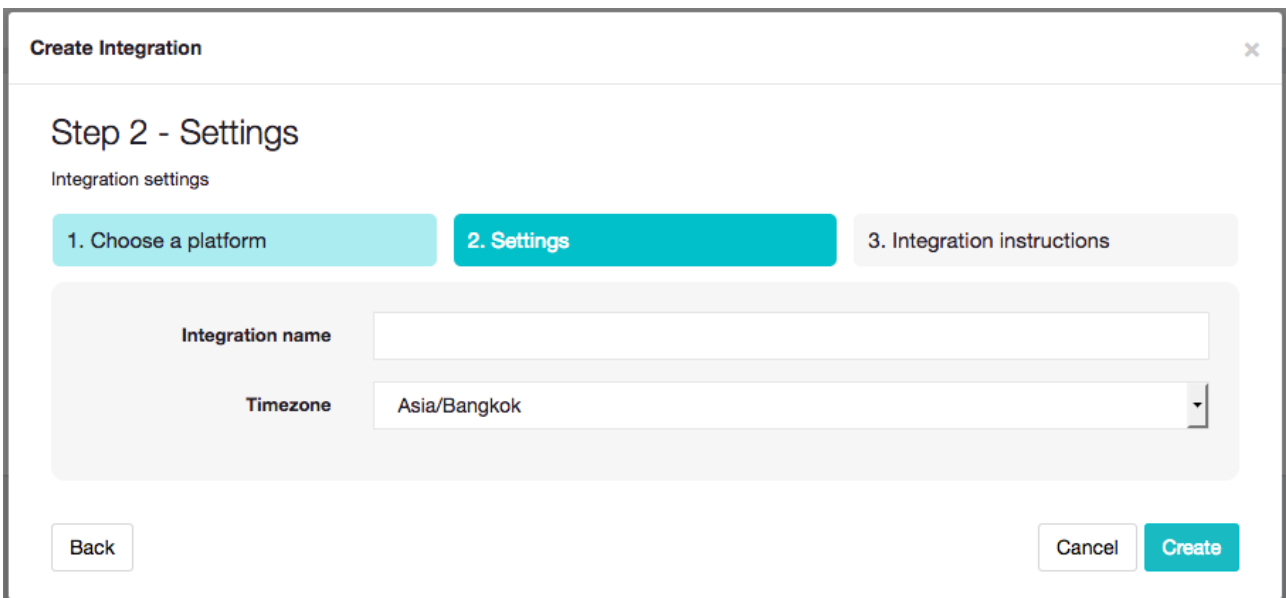

4. Choose **Magento** platform and then click **Next** button.

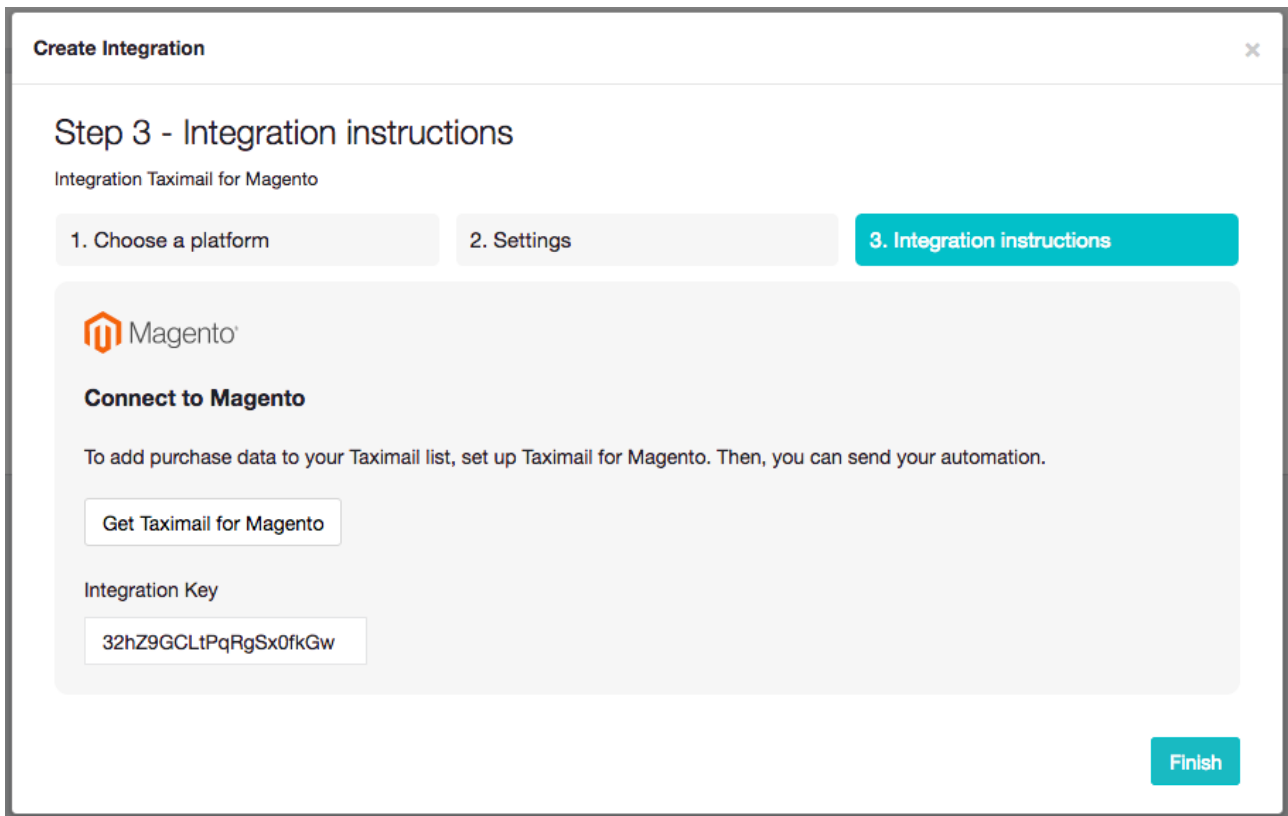

The screenshot shows a dialog box titled "Create Integration" with a close button (X) in the top right corner. The main heading is "Step 1 - Choose a platform" with the instruction "Please select platform". Below this, there are three tabs: "1. Choose a platform" (active, teal), "2. Settings" (disabled, light grey), and "3. Integration instructions" (disabled, light grey). The content area shows a selection card for "Magento" with its logo, which is highlighted with a teal border. At the bottom right, there are two buttons: "Cancel" (disabled, light grey) and "Next" (active, teal).

5. Input your Interation name and select Timezone, then click **Create** button.

The screenshot shows the same dialog box, now at "Step 2 - Settings" with the instruction "Integration settings". The tabs are "1. Choose a platform" (disabled, light teal), "2. Settings" (active, teal), and "3. Integration instructions" (disabled, light grey). The content area has two input fields: "Integration name" (an empty text box) and "Timezone" (a dropdown menu with "Asia/Bangkok" selected). At the bottom left is a "Back" button (disabled, light grey). At the bottom right are "Cancel" (disabled, light grey) and "Create" (active, teal) buttons.

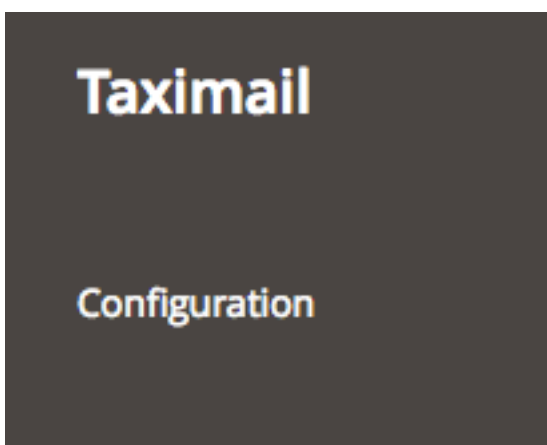

6. Save your **Integration key** and click **Get Taximail for Magento** to download Taximail for Magento 2.

7. Install Taximail for Magento 2.

8. Navigate to your Magento 2 Admin Panel.

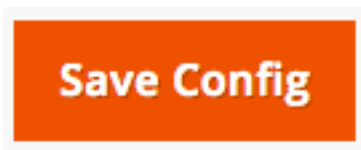

9. Click **Taximail** and choose **Configuration**.

10. In the Taximail General Configuration section, input your **Integration Key** field.

Enabled <small>[store view]</small>	Yes	▼
Integration Key <small>[global]</small>	<input type="text"/>	
Account Details <small>[store view]</small>	Important: --- Enter your Integration Key ---
