**Mindz' Instagram User Feed Widget - User Guide**

For any query or support write us [care@technologymindz.com](mailto:care@technologymindz.com)

[www.technologymindz.com](http://www.technologymindz.com)

1. Unzip the file you received with the extension and copy **Technologymindz** folder to your Magento 2x app/code directory.
2. Clear Cache and Reindex Magento site. You will see **TM Instagram feed** menu same as shown in below screenshot.

Note: If you still do not see the menu then please check file and directory permission as per magento2x requirements.

3. Run below command in Magento root directory from terminal to update Magento software.

**php bin/magento setup:upgrade**

You can also check installed module status from below command.

**php bin/magento module:status**

4. Now you need to create Instagram app to get client ID and client secret key. Log into your Instagram account and go to <https://www.instagram.com/developer/> and register new application.

5. Enter all the information for Instagram API. For redirect URL enter admin URL followed by **technologymindz\_instagramfeed/insta/auth/** e.g. if your admin URL is <http://www.example.com/myadmin/> than redirect URL will be [http://www.example.com/myadmin/technologymindz\\_instagramfeed/insta/auth/](http://www.example.com/myadmin/technologymindz_instagramfeed/insta/auth/)

## Register new Client ID

Details Security

---

**Application Name:**

*Do not use **Instagram, IG, Insta** or **gram** in your app name. Make sure to adhere to the [API Terms of Use and Brand Guidelines](#) .*

**Description:**

**Company Name:**

**Website URL:**

**Valid redirect URIs:**  

*The `redirect_uri` specifies where we redirect users after they have chosen whether or not to authenticate your application.*

**Privacy Policy URL:**

**Contact email:**

*An email that Instagram can use to get in touch with you. Please specify a valid email address to be notified of important information about your app.*

Type the words above:

6. After successfully registration you will get Client ID and Client Secret. You need to use these information in Mindz' Instagram User Feed Widget's configuration.

**CLIENT INFO**

**CLIENT ID** [REDACTED]

**CLIENT SECRET** [REDACTED]

**WEBSITE URL** marketingmindz.com

**REDIRECT URI** http://localhost/magento2/sohan/technologymindz\_instagramfeed/insta/auth/

**SUPPORT EMAIL** sohan.marketingmindz@gmail.com

---

we are generating technology mindz instagram feed plugin.

2. Enter Client ID and Client Secret in Magento extension's configuration and save it. After saving these information you will get Auth button.

Click on this button to authorized If all the information and URL is correct then you will get successfully authorized message else you will get related error.

Make sure you have entered correct API information. If you enter wrong information then we can correct it and reauthorized account.

**Note:** Before authorizing the account go to Store->Configuration->Advanced->Admin->Security and set "Add Secret Key to URLs" to No and Save it.

## Instagram Settings

🔍 🔔 5 👤 sohan ▾
