

Installation guide

- Unzip the contents of the ZIP folder to your app/code directory
- Backup your web directory and store database
- Download the extension
 1. Sign in to your account
 2. Navigate to menu My Account ▢ My Downloads
 3. Find the extension and click to download it
- Extract the downloaded ZIP file in a temporary directory
- Upload the extracted folders and files of the extension to base (root) Magento directory. Do not replace the whole folders, but merge them.
- Connect via SSH to your Magento server as, or switch to, the Magento file system owner and run the following commands from the (root) Magento directory:
 1. `cd path_to_the_magento_root_directory/app/code/`
 2. create directory ThLassche/RegenerateRewrites in the code folder
 3. Unzip the files to this directory
 4. `php -f bin/magento module:enable ThLassche_RegenerateRewrites`
 5. `php -f bin/magento setup:upgrade`
 6. `php -f bin/magento setup:di:compile`
 7. `php -f bin/magento cache:flush`
- Log out from Magento admin and log in again
