

Installation Steps

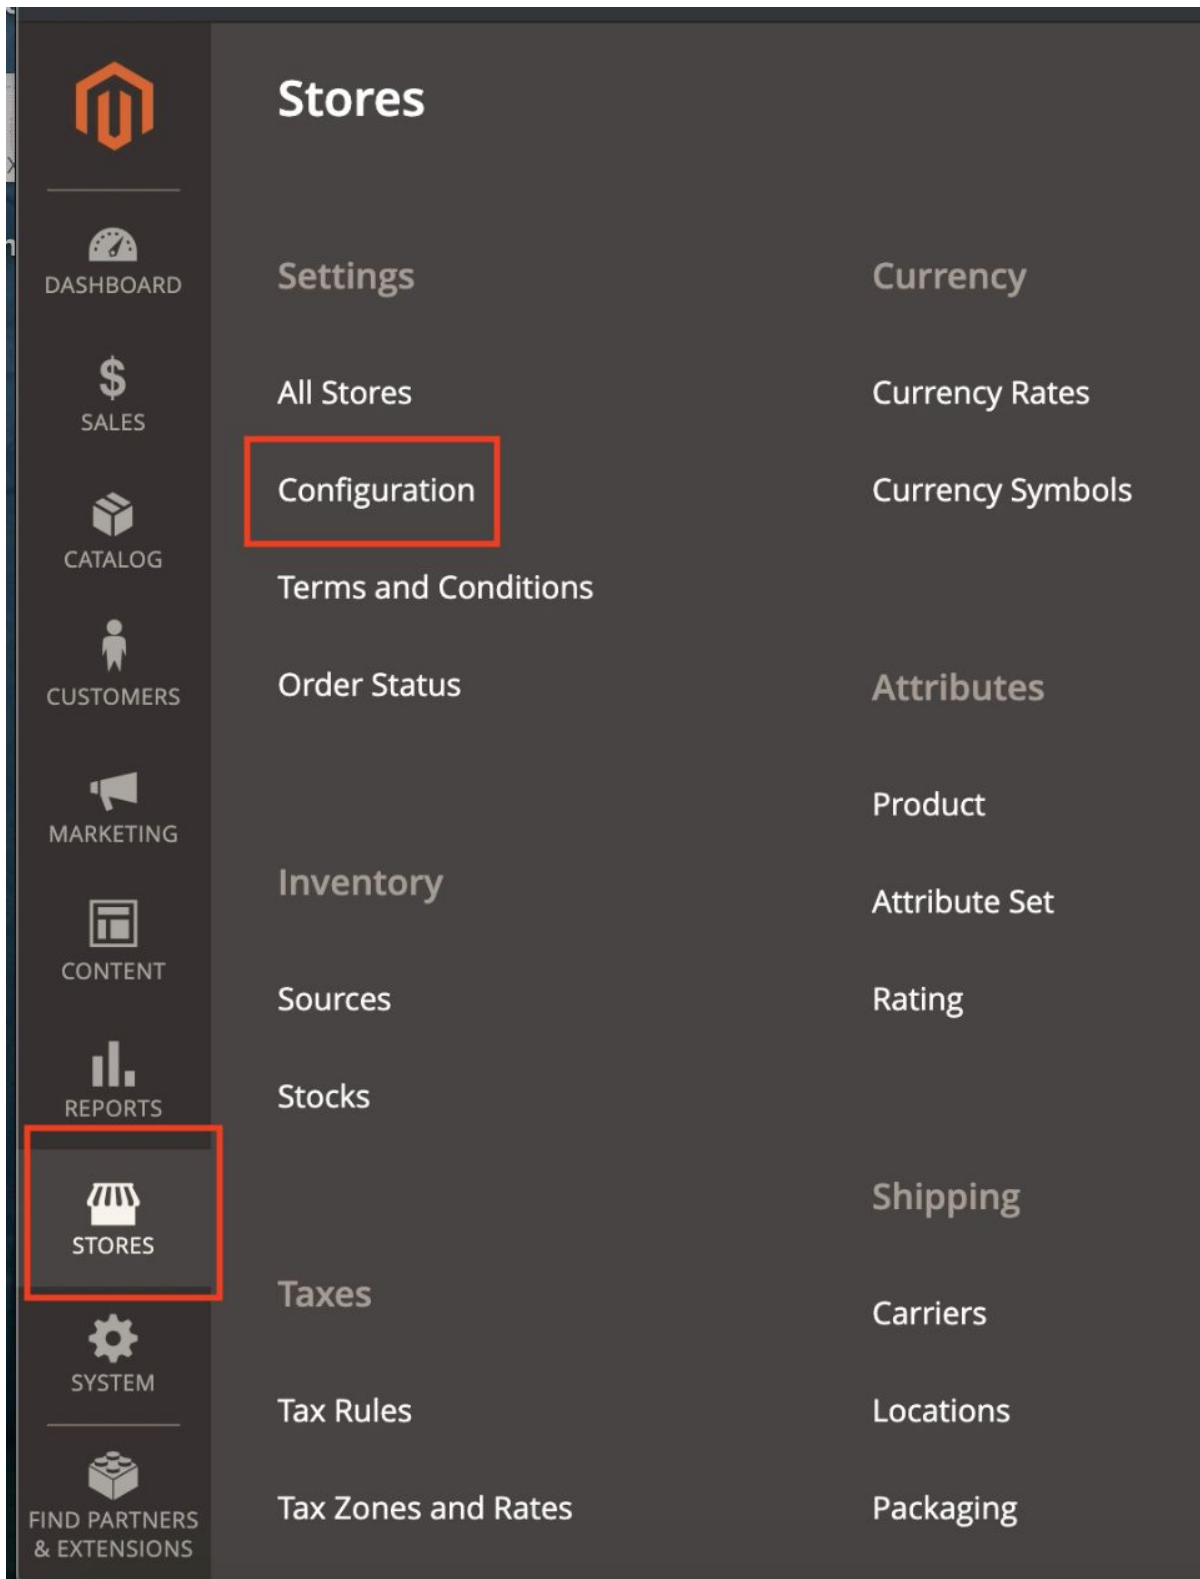

1. Install this plugin by extracting all this content into your Magento extension directory -> `app/code/Threekit/Connector`
 - a. Open your FTP Program
 - b. Drop in Threekit connector to 'code' Folder in the directory for extensions
2. Run 'Magento Setup' commands
 - a. `php bin/magento setup:upgrade` to install (The plugin adds an EAV field to the Product entity).
 - b. Ensure the module is enabled `php bin/magento module:enable Threekit_Connector`

```

```

3. Log in to your Magento store as an admin
4. Navigate to the Store and Configuration panel

5. Add CDN and Org Token

- a. The CDN is in the format of - `https://[insert environment name].threekit.com/app/js/threekit-player.js`
- b. The Org Token is generated by navigating to your Threekit Org → Settings (in left-hand navigation) → Tokens → Add Token

General Configuration

Insert threekit org domain here

ex. `https://test.threekit.com/app/js/threekit-player.js`

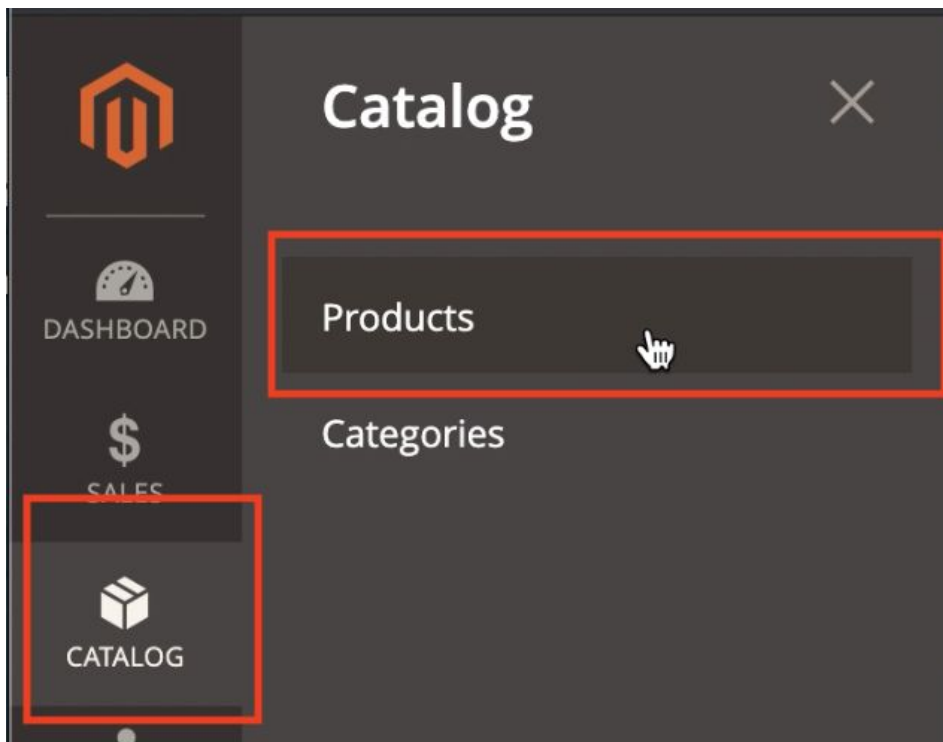

CDN [global]

Enter the location of your chosen Threekit CDN

Org Token [global]

Enter your Threekit Org Token

6. Then go to Catalog and Add product

-Click on Add Product button

Products 🔍 🔔 👤 Will ▾

Add Product ▾

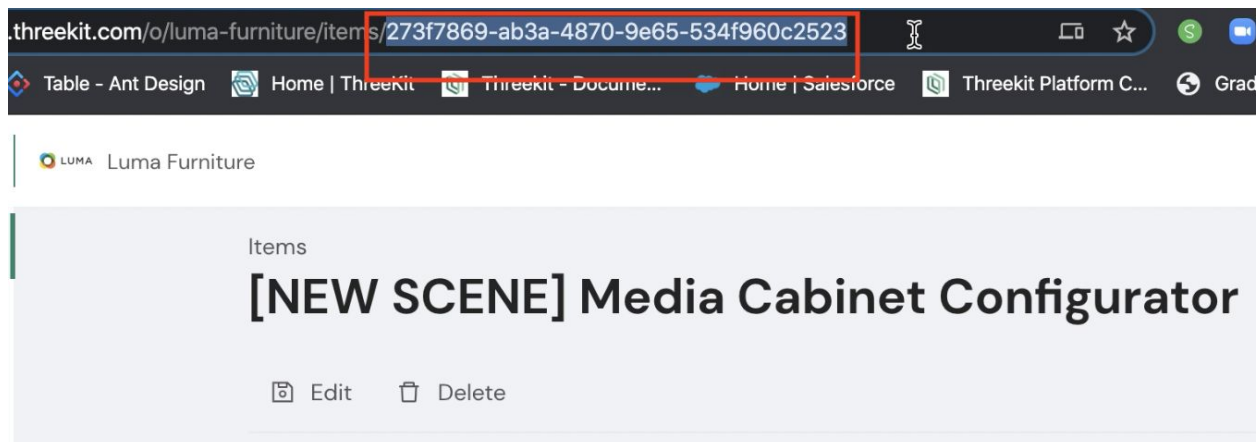

⌵ Filters 👁 Default View ▾ ⚙ Columns ▾

🔍

Edit Delete

8. Add Name, SKU, and other attributes
9. Add/Select Category
10. Add Thumbnail (png/jpeg)
11. Under Threekit tab, Add the catalog item id (that was copied in step 7) to the Asset Id field on the form and enable AR if applicable

Threekit ⊞

Threekit Asset ID [global]

AR Enabled? [global] ✓ Yes No

12. Once saved you should see the embedded 3D asset on your product page

Trouble Shooting

- If you are a current customer with us, please contact [Customer Support](#) for any questions or issues.
- Do not see a 3D player on a Threekit-enabled product's page? Make sure your CDN, Token, and asset ID all are correct.
- `Window.threekit` is not a function -> Check CDN
