

# Setting the module parameters

Modified on: Tue, 10 Jan, 2017 at 10:40 AM

1. For setting module parameters go to the page TriggMine module in the main administrative menu **TriggMine > TriggMine Settings**

The screenshot shows the Magento Admin Panel interface. At the top, there is a navigation menu with tabs for Dashboard, Sales, Catalog, Customers, Promotions, Newsletter, CMS, Reports, System (highlighted), and TriggMine. Below the navigation menu is a 'Latest Message' banner: 'Reminder: Change Magento's default phone numbers and callouts before site launch'. A 'TriggMine Settings' button is visible in the top right.

On the left sidebar, the 'Configuration' section is expanded to show 'TriggMine' settings. The 'GENERAL' section is selected, and the 'TriggMine' sub-section is active. The 'Enable TriggMine' setting is set to 'Yes'.

The main content area displays a green success message: 'The configuration has been saved.' Below this, the 'TriggMine Settings' section is shown with the following fields:

TriggMine Settings		
Enable TriggMine	Yes	[STORE VIEW]
API URL	demo.triggmine.com.ua ▲ Here...	[STORE VIEW]
API key	some-random-key ▲ Here...	[STORE VIEW]

Below the TriggMine settings, the 'Export orders history' section is shown with the following fields:

Export orders history		
Enable Export	Yes	[STORE VIEW]
Export date from	03.01.2017 ▲ Set the Date from to export orders	[STORE VIEW]
Export date to	05.01.2017 ▲ Set the Date to to export orders	[STORE VIEW]

2. Choose from the drop-down list box Enable Triggmine "Yes" to enable the module
3. Set a link to the dashboard in the field **API**
4. Enter API key in the field **Token**

Get the required fields for the CMS Magento module, you can in the personal TriggMine dashboard page **Settings > Integration**

The screenshot shows the TriggMine settings interface. On the left is a dark sidebar with navigation options: Dashboard, Email Campaigns Editor, Reports, Settings (highlighted), FAQ, Subscription / Billing, and Log out. The main content area is titled 'Settings' and has sub-tabs for 'Main', 'Integration' (selected), and 'My account'. Under the 'Integration' tab, there are two sections: 'CMS' and 'ESP'. The 'CMS' section includes fields for 'Your API URL' (demo.triggmine.com.ua) and 'Your API key' (some-random-key), a 'CMS' dropdown menu set to 'Magento 1.9', a blue 'Download plugin' button, and a 'How-to-guide' link with a document icon. The 'ESP' section includes an 'Email service provider' dropdown menu set to 'Triggmine sends all emails', 'From Email' (name@mail.com), and 'From Name' (My Name) fields, and a blue 'Save settings' button.

5. After each modification to the module for the CMS Magento, you must clear the cache on a page **System > Cache Management**

How to do it [http://docs.magento.com/m1/ce/user\\_guide/system-operations/cache-clear.html](http://docs.magento.com/m1/ce/user_guide/system-operations/cache-clear.html)  
([http://docs.magento.com/m1/ce/user\\_guide/system-operations/cache-clear.html](http://docs.magento.com/m1/ce/user_guide/system-operations/cache-clear.html)).
