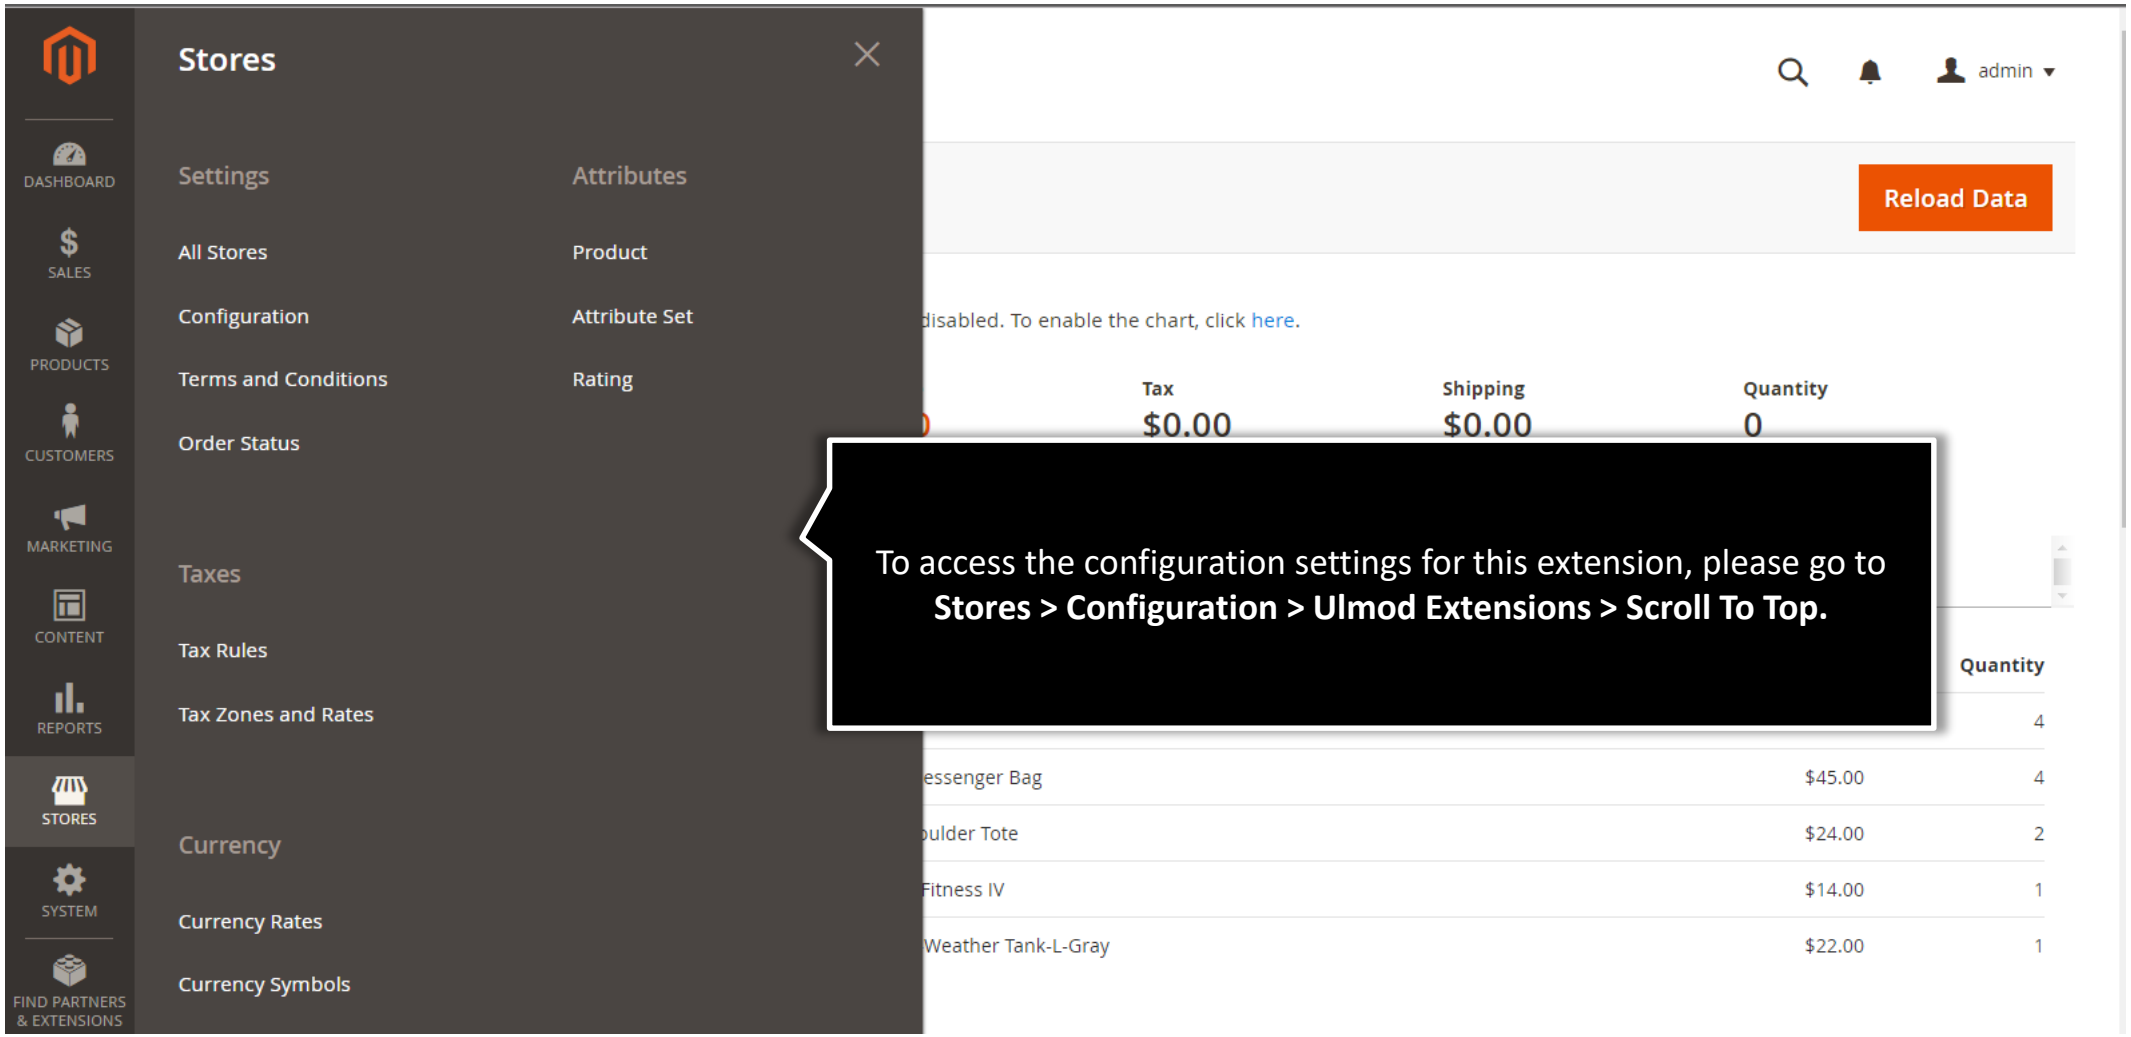
1. Scroll To Top Configuration

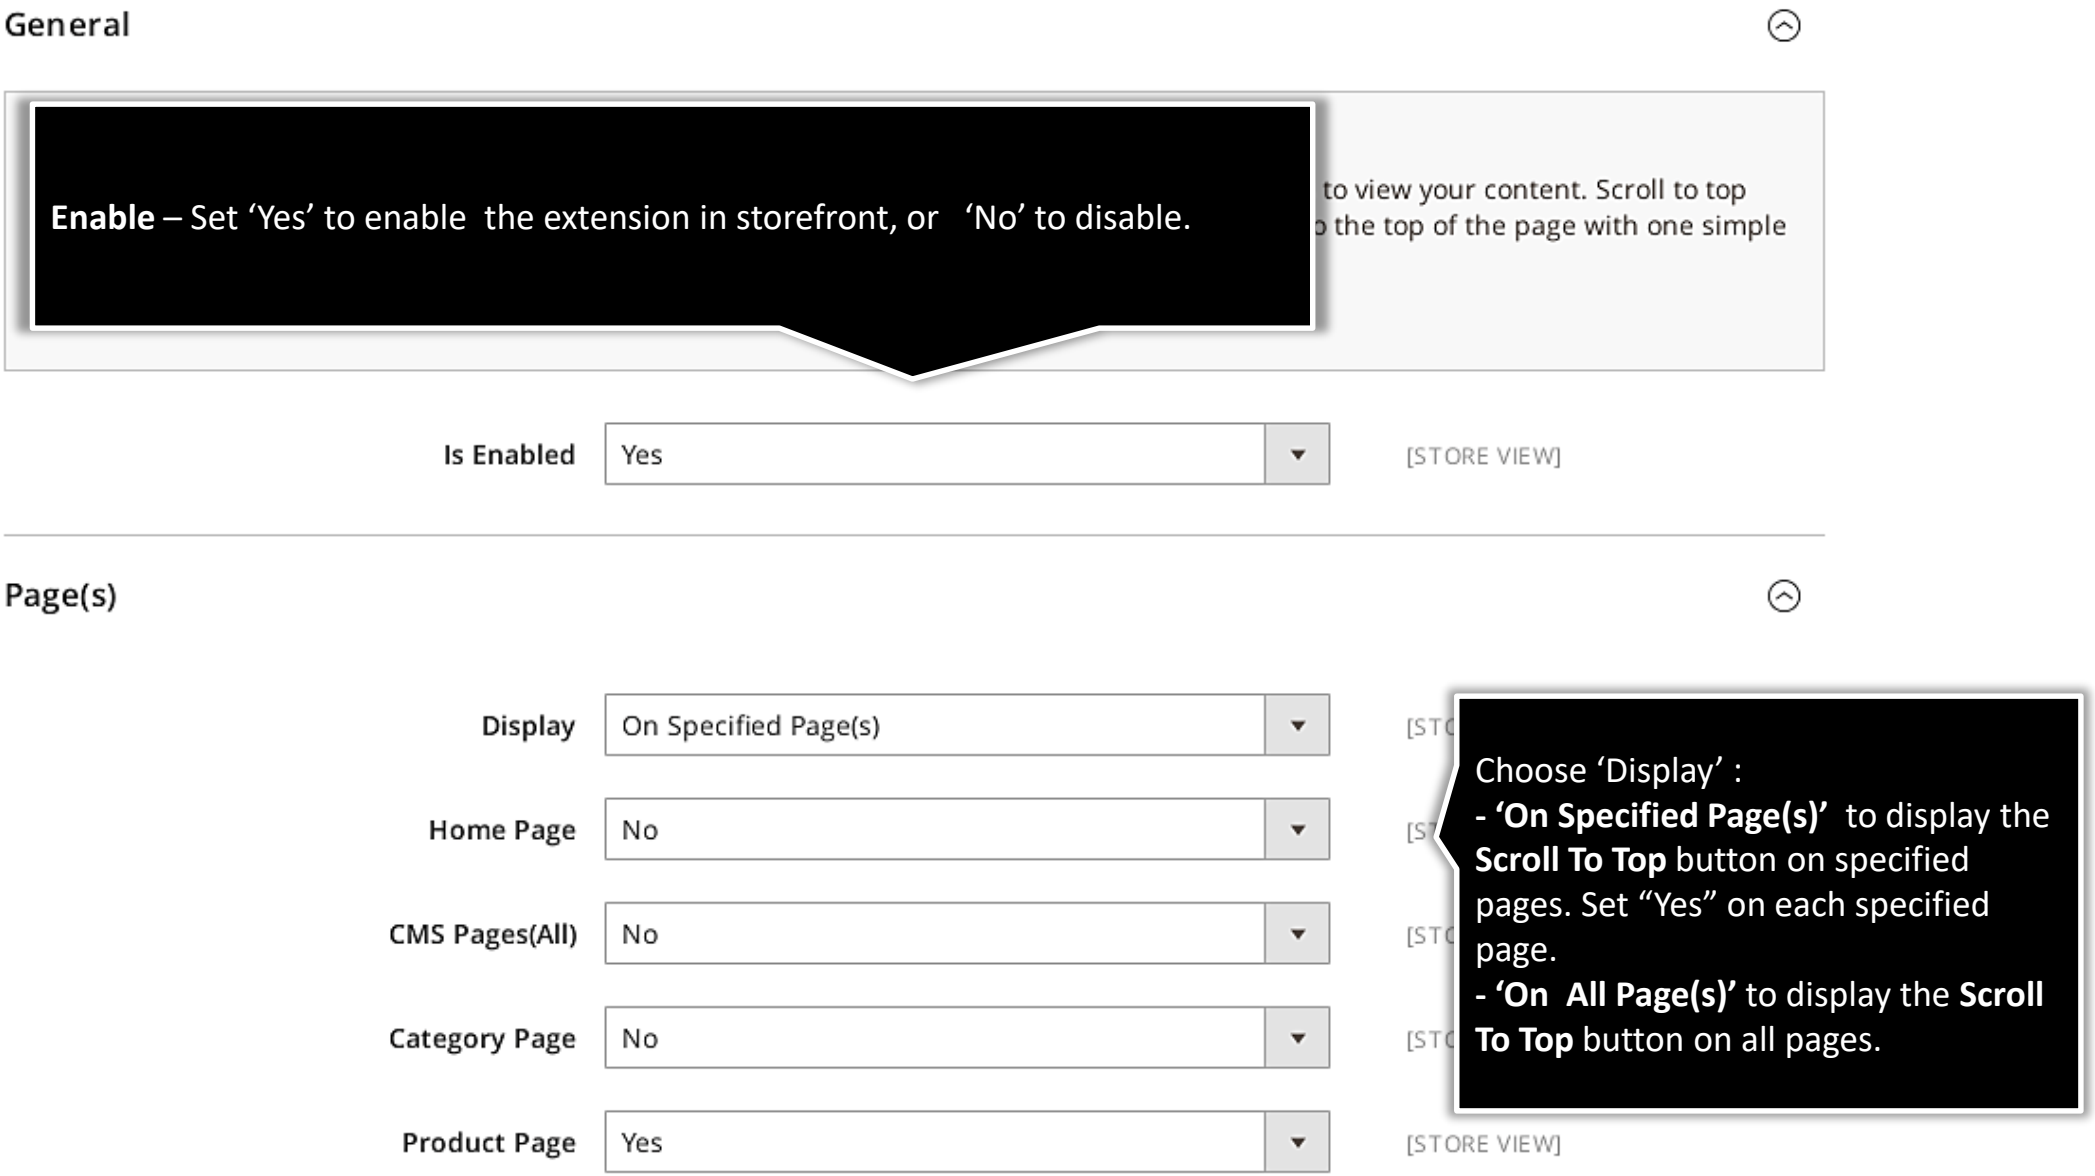
Once you are finished with installing the extension it is time to proceed to your Magento 2 backend to finalize the Scroll To Top setup.

Before start using the extension, we suggest running through the Scroll To Top extension settings and other options available to adjust the settings. This will help in better understanding of how the extension functions and what can you expect your Scroll To Top look and feel like.

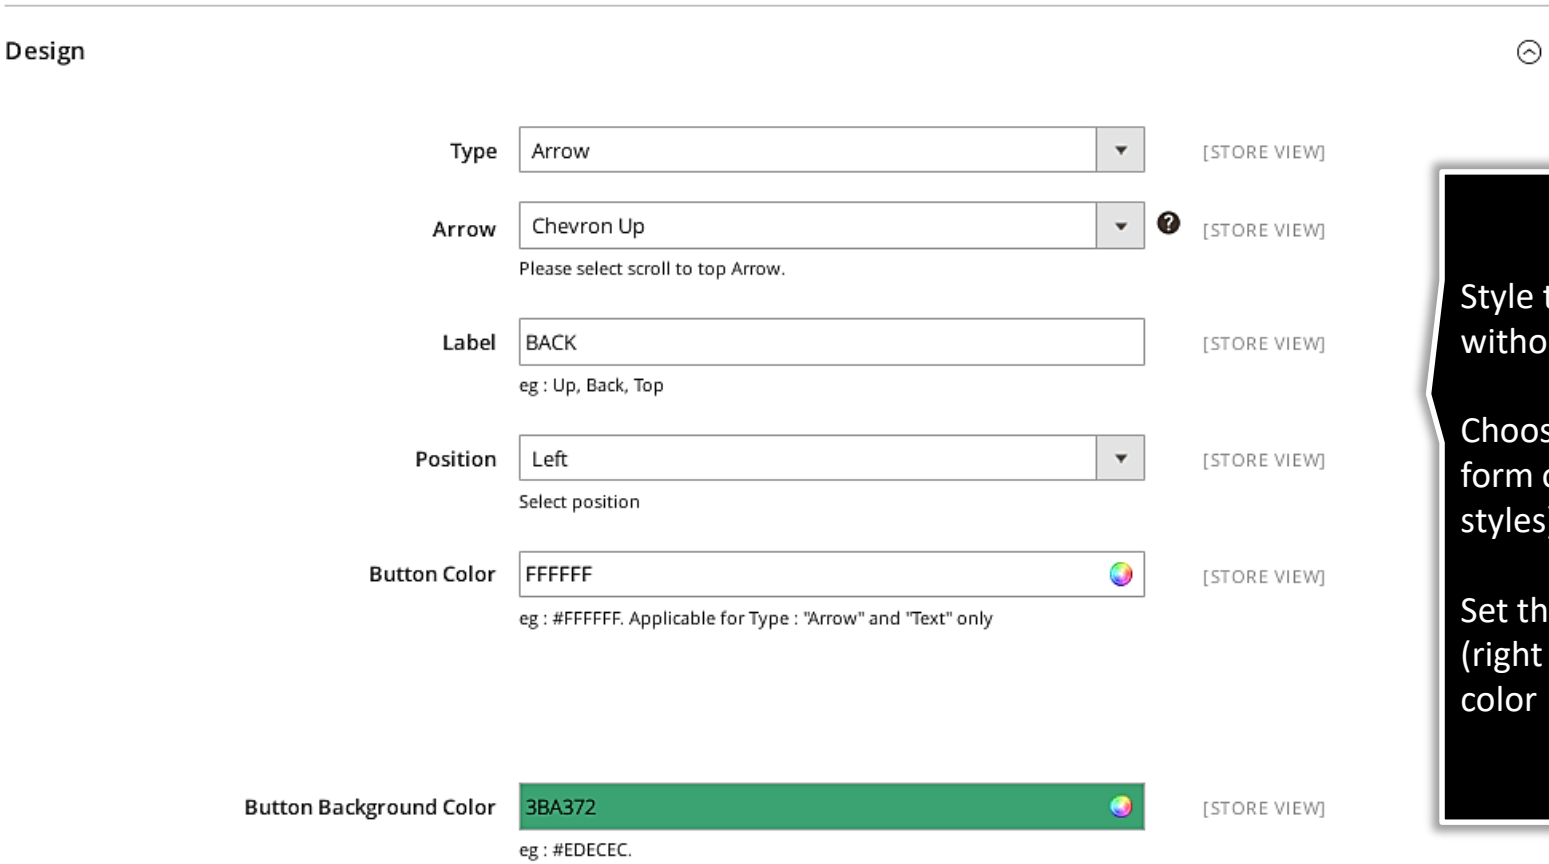
1.1. Accessing the Extension Main Settings



1.2. General and Pages



1.3. Design



Style the **Scroll To Top** button without editing the CSS file.

Choose to display **Scroll To Top** in form of Arrow (up to 11 arrows styles), Text or Image.

Set the **Scroll To Top** label, position (right or left), color, background color
